Every Meal a Happy One!

No half-cooked meals, no disappointments—but always happy, expectant faces and big appetites at every meal.

GLOBE Gas-Kol Combination Range

Here's why anyone can prepare delicious, appetizing meals on this range: The same oven is used for either coal or gas—with perfect results. Oven is square and has no obstructions. The bottom is a solid cast plate, insuring an even, perfect baking surface. No dampers, no draft slides, no complicated parts to get out of order. An automatic ventilating system promotes perfect combustion. And the oven thermometer takes the guesswork out of cooking.

Let us show you this range and explain every detail. Come in this week.

The Winchester Store

---The Steady Return---

The Cash Grabateria Grocery was the first on the field to establish a store that eliminated all the red tape of soliciting orders at your back door, employment of a bookkeeper to figure your account, cut out the any-time-in-the-day-delivery and a collector to chase after you to get you to pay your bill.

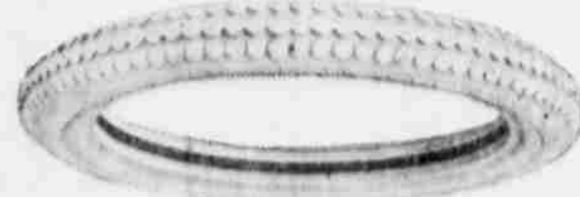

The innovation took from the start and the steady return of the customers tells the story of our ability to carry a splendidly assorted stock of all the good things for the table. You can sense the prosperity of the store the minute you step into it.

It has come because we have given the public what they want at the prices they want, deliver at a regular hour and deal with you as we would be dealt with were we the customer and you the store owner.
