FURNITURE CASH OR CREDIT

---The Steady Return---

The Cash Grabateria Grocery was the first on the field to establish a store that eliminated all the red tape of soliciting orders at your back door, employment of a bookkeeper to figure your account, cut out the any-time-in-the-day-delivery and a collector to chase after you to get you to pay your bill.

The innovation took from the start and the steady return of the customers tells the story of our ability to carry a splendidly assorted stock of all the good things for the table. "You can sense the prosperity of the store the minute you step in to it."

It has come because we have given the public what they want at the prices they want, deliver at a regular hour and deal with you as we would be dealt with were we the customer and you the store owner.
