Shuts Out Sound.
Persons who wish to concentrate their attention upon studies, business matters or what not, often find themselves most annoyingly distracted by noises of one kind or another. Street traffic may be disturbing; the crying of a baby may irritate; or perhaps the rowling of cats on a back fence or the persistent tooting of a cornet in the neighborhood may induce exasperation.

To obviate this sort of trouble, Geline Janeguj of Bridgeport, Conn., has devised what he calls the "ear silencer."

It is a frame of light construction which may be fixed upon the head in such a way that two screws carrying soft rubber plugs on their ends are inserted into the ears.

When this adjustment has been made exactly right the two screws that carry the rubber plugs enter the wearer's ears horizontally and have only to be tightened sufficiently in order to fit snugly and exclude all troublesome sounds.

Opossum a Pest in Australia.

New Zealand has a native species of opossum which wears a very beautiful fur. It is not at all like the opossum that we know in this country.

Many years ago it was introduced into Australia, and, finding there none of the natural enemies that preyed upon it in its own land, it has since increased in numbers until it has become a serious pest. It is a robber of fruit trees.

However, the value of the animal for its fur is so great as to outweigh the damage it does in the fruit-growing sections, and in view of this fact, the Australians are encouraging the increase of opossums in forest districts. Their skins are becoming a considerable item of export, and already many of them are made up into fashionable garments for women in the United States.—Philadelphia Ledger.

First American Train Robbery.
Train robbery, a pastime which was for some years very popular in the West, was inaugurated 48 years ago at Verido, Nevada, when the Overland express was held up and depouled of about \$50,000. This robbery marked a new departure in the field of crime, for previously only stage coaches and travelers had fallen prey to holdup men. When western outlaws are discussed, the name of Jesse James is usually the first brought up, but he was not the pioneer train robber. That dubious distinction belongs to one Buck Taylor, who, with four companions, pulled off the train holdup which was the first of a long string of similar crimes.

ELECTRICAL Housekeeping

Eight hours is insufficient time for human hands to perform all the household tasks. However, it is possible to establish the eight-hour day in the home by making use of the electrical hands that are offered to you in the form of the electrical dish-washer, washing machine, ironing machine, vacuum sweeper and many other labor saving devices.

These untiring "household assistants" will do your work quickly and efficiently. Your home can be run systematically with these electrical hands for they never disappoint you or grow tired. Your time and energy can be devoted to the better things of life, when you keep house electrically.
