FURNITURE CASH OR CREDIT

---The Steady Return---

The Cash Grabateria Grocery was the first on the field to establish a store that eliminated all the red tape of soliciting orders at your back door, employment of a bookkeeper to figure your account, cut out the any-time-in-the-day-delivery and a collector to chase after you to get you to pay your bill.

The innovation took from the start and the steady return of the customers tells the story of our ability to carry a splendidly assorted stock of all the good things for the table. You can sense the prosperity of the store the minute you step in to it.

It has come because we have given the public what they want at the prices they want, deliver at a regular hour and deal with you as we would be dealt with were we the customer and you the store owner.

Pabcolin

The artistic durable floor covering

—An Improvement on Printed Linoleum

As soon as you see Pabcolin you will understand why it gives exceptionally long service.

The extra-thick, hard, wearing surface stands up under all kinds of scuffing and hard knocks, while the coloring in the handsome patterns remains unaffected by soap and scrubbing brush. This is because the wearing surface of Pabcolin is formed, not with soft oil-paint as generally used, but with enamel paint, and fully a third more is used.

Then, the "body" of Pabcolin is firm, long-fiber rag felt, manufactured for this special purpose, and made thoroughly water and rot proof by a special process.

Pabcolin is not linoleum, nor a substitute. It is an improvement on printed linoleum—a printed floor covering of superior qualities. Comes in many handsome patterns, suitable for bathroom, bedroom, kitchen, laundry, sleeping porch, hall, attic, dining-room—in fact, for every room in the house.

Let us show you Pabcolin, and explain its special points of superiority and the economy of using it. You will recognize Pabcolin by its handsome, glossy surface.
