ST. JOHNS

WE have been here for years in business and expect to remain. During this time we have seen competitors come and go and a few have taken away more than they brought into the town. Does it pay to help them do this? Is it not better to deal with those who become citizens of the community and are interested in a large way in its welfare? Where we have made money it has been reinvested in other St. Johns industries, or in making our own store better and larger and helping towards the growth and betterment of St. Johns in both cases.

We employ none but American citizens and will employ no other.

Our homes are in St. Johns, our children are getting their education in St. Johns schools and we are proud of it.

We have no intentions of taking away St. Johns dollars and spending them in other climates.
