

ST. JOHNS REVIEW

An Interesting Game

The first foot ball game of the Portland City League was played last Sunday at Pier Park and the St. Johns Bachelor Club chalked up a 16 to 0 victory over the Albina Athletic Club in a fast and hard fought game. Both teams played excellent ball and the crowd, estimated at about twelve hundred, witnessed the many thrilling plays before time was called at the end of the last quarter. The St. Johns Community Club Band was out and played several selections which were enthusiastically received and appreciated by the crowd. The first quarter was hotly contested and neither side scored, but in the second quarter a touch down and a beautiful dropkick by "Slick" Whelan from the twenty yard line gave the Bachelors nine points. As far as scoring was concerned, the third quarter was a repetition of the first. In the fourth quarter, however, a series of line plunges, end runs and a beautiful pass, "Horn" Schroeder to "Battle Bigelow," placed the ball on Albina's one yard line, and the Bachelors were again in position to score. Albina's line was held on the first down, "Horn" was thrown for a one yard loss, but on the next down "Guff" Bellamy "wormed" his way through for another touch down and "Battle" kicked goal. Score: Bachelors, 16; Albina, 0. This ended the scoring and the game ended with the ball in mid-field. Johnson and Himes were the stars for the losers while the entire Bachelor team played excellent ball. Referee Doney handled the game in a faultless style.

THE LINE UP:

Albina	Position	Bachelors
Roffoni	L. E.	"Grit" Lind
Wiggins	L. T.	"Lunk" Wrinkle
Clubb	L. G.	"Pat" Crow
Kilduff	C.	"Pat" Shaw
Burns	R. G.	"Sid" Jordan
Dyano	R. T.	"Bill" Williams
Johnson	R. M.	"Scout" Lind
Cook	C.	"Battle" Bigelow
Brady	L. H.	"Huck" Hiatt
Plyun	R. H.	"Slick" Whelan
Hines	F.	"Horn" Schroeder

Substitutes - Albina, Wilson for Wiggins, Sollno for Roffoni, Bachelors - "Guff" Bellamy for "Slick" Whelan "Curly" Vrooman for "Bill" Williams and "Duke" Walton for "Sid" Jordan.

My Dog

I look into your great brown eyes, Where love and loyal homage shine, And wonder where the difference lies Between your soul and mine. I search the whole broad earth around For that one heart which, leal and true, Bears friendship without end or bound And find the prize in you. - J. G. Holland in "Primary Education."

Don't Get Impatient

It doesn't help when trouble's here to shed the brackish, briny tear. I will recall the fateful day when my old hen refused to lay; I needed eggs to poach and boil, and brace me up for honest toil, but when I sought the biddy's coop, she'd laid no eggs and cared not a whoop. And I had fed her costly hay and kindred grub that she might lay. I might have wept and tore my hair and rent my beard in deep despair; instead of that I seized the fowl, be-headed her, despite her howl, and had her for my evening meal, and then remarked, "How good I feel!" And so I make the best of things when grief in my direction swings. I once possessed a balky steed, and when it balked 'twas vain to plead or weep or let hot language roll, or soak it with a cedar pole. When on a journey I would start I took some volumes in the cart; when balkiness obsessed the steed, I'd open some good book and read, and spend an hour in comfort there, instead of pawing in the air. And when the horse desired to go I'd speak a loud, commanding, "Whoa!" And so he quit the balking game and as a trotter earned much fame. I always make the best of things and am happy as nine kings. - Walt Mason.

As the big water tank rises on its foundations in St. Johns people begin to realize that there will be plenty of water for next year from the big city mains. The tank formerly stood on Vernon on the block bounded by Prescott, Skidmore, Eighteenth and Nineteenth streets, north. It holds 360,000 gallons of water. LaRue & LaRue are the contractors who took it down and are rebuilding it on the St. Johns site. When completed it will have a winding stairway to its top, over 160 feet from the ground. G. C. Rasch is the assistant city engineer in charge. Tom Dowling, water station superintendent, has a crew of twelve men making connection to the tank from the big Bull Run water main.

Dan Williamson has reopened his restaurant at the corner of Burlington and Ivanhoe streets, after being closed down for the mid-summer. The restaurant has been handsomely redecorated and placed in a most attractive and pleasing condition. Dan has established a wide spread reputation as a good place to eat as well as for service and quality. Do you know - That you can get any Model or Finish Victrola at Currin's on very easy terms?

St. Johns Community Club

The St. Johns Community Club will enjoy the hospitality of the Log Cabin Bakery at their establishment, 265 Ivy street, next Tuesday evening. Thomas Autzen will have charge of the auto transportation to bakery. The Community Club upon a previous occasion was entertained by the Log Cabin Bakery company, and the event was hugely enjoyed. It is interesting as well as entertaining to witness the art of bread and pastry making through their various processes in a big establishment, and all will be well repaid for making the trip next Tuesday evening. Be at the bank corner not later than 7:30 o'clock, and those having autos are requested to bring them. Remember the time and place.

The Til Taylor memorial fund has attained a total of \$16,507. It is not enough for the heroic equestrian statue first proposed. It is enough for the purchase of a "Til Taylor Memorial Park" in Pendleton, which was the home of the martyred sheriff of Umatilla county. A park would furnish a play ground for children. It would afford a resting place for mothers and babies. It would add to the pleasure and comfort of young and old. Its usefulness and beauty would symbolize and perpetuate the character of the man. Til Taylor gave his life to public service and duty. His life votes for a park. - Journal.

Do you know - That Currin's for Drugs have many, many satisfied owners of Victrolas bought from them?

RUBERS-ROGERS

Regarding the 1925 Fair

The question of the 1925 Fair seems to be the main subject at most meetings of the various clubs, the Boosters as well as others, but one thing should not be forgotten, and that is the immediate necessity of existence. The 1925 Fair will give employment to a large number of people, when it is started, which may not be for another year. In the mean time it behooves each and every one of us to look out for ourselves and our fellow men. If we have a family in need it is our duty to assist them to the best of our ability. This is a mighty good old world to live in and it is our duty to make it as pleasant as possible for our neighbors. We may need help ourselves some time or other, and therefore it is our duty to assist others. Perhaps this 1925 Fair will not be placed on the site that we may have in mind, it is still our duty to assist in any way we may be able to make this gigantic undertaking a success. The people in St. Johns district have a wonderful site for this Fair, but will it be the site selected? The people in the vicinity of the various other sites have their opinions of the respective sites, but now let us forget about the various communities and consider the City of Portland as a whole which site will be of the most value to industries after the Fair is over. In order to build up cities you must have pay rolls. Pay rolls build up the residential districts, and as the residential districts fill up, street improvements are sought, and so it goes on. But the prime motive is to get the industry first. Let us consider which site is the best from an industrial standpoint. Then the facilities for taking care of freight, by rail and wa-

ter, and paved roads. These are a vital necessity and should never be overlooked. Loop service by rail has been proven the most economical and serviceable in cities of any size and usually surround the entire city. The Peninsula is the only part of Portland that can boast of having this one great feature. The Peninsula is the only part of Portland where the people saw fit to place Terminal No. 4, by voting bonds to the extent of several millions of dollars. Extent of territory necessary is another great item to be considered, especially territory abutting deep water. What part of Portland, Peninsula excepted, that is free from bridges and has these requisites? Distance from the center of the city is another item. Again, the Peninsula and its sites have other advantages. Views of the rivers from the Peninsula are of the same grandeur as from any site ever mentioned. Both Columbia and Willamette rivers can be seen from the lower Peninsula. Several mountain peaks can also be viewed from the Peninsula. There is only one trouble on the Peninsula. That is there are two sites, both good. From an economical standpoint, there is but one site whereby all of the people of the City of Portland will be benefited. That is where they have already voted and spent millions of dollars. When it comes to a small tract of land, which should at this time be filled with factories, etc., Mock's Bottom is the place; but the point to consider expenses, amount of territory and means of gaining access to that territory and its best uses to the people of Portland as a whole, after the 1925 Fair is over. At the present time the people of the Peninsula are divided as to which is the best site, but this is the point that the Fraternal

Boosters are trying to bring forth, that in order to get results there must be unanimous action of all parties concerned in any undertaking, whether it is the Fair, a park, a street or anything else that is a benefit to the people as a whole. Then the clubs in the various districts should get together, under one common head, call it what you will, and boost for your district; thereby you will have more power, for in unity there is strength. If there is anything good for your community it is worth working for, and it is up to everybody to do their part. This is what the Fraternal Boosters of Portland are trying to do on the Peninsula - get the several clubs and leagues under one head and have an organization second to none in the City of Portland. - Joe Roberts, Sec.

The Home Coming Day at the Christian church last Sunday was largely attended and the services were greatly enjoyed. A special feature at the evening service and one that was highly appreciated was the illustration of Dr. Jones' sermon as he preached by Mrs. George Bigler, who drew the illustrations with crayon and paper. The Dr's theme was the "Way of Life," and it was aptly and appropriately depicted by Mrs. Bigler. The large audience was immensely pleased with the service and their closest attention was held until conclusion.

Who likes a Hallow'en party? Every one, of course! The ladies of Mooseheart Legion; the Moose Hall; October 18th; 5 piece orchestra; uptodate dances; pumpkin or mince pie and coffee. Gentlemen please to wear your overalls and ladies your gingham dress. Prizes for the best hard time costumes. Lots of fun and frolic. Price 35c. Rough said.
