We Know Our Business

LINCOLN KNEW

The words he uttered over half a century ago are as true now as then, and should be an inspiration to all Americans.

Ponder well what he said in addressing the Workmen's Association in 1864:

"PROPERTY is the fruit of labor; property is desirable; is a positive good in the world. That some should be rich shows that others may become rich, and hence is just encouragement to industry and enterprise. Let not him who is houseless pull down the house of another, but let him work diligently and build one for himself, thus by example assuring that his own shall be safe from violence when built."
