

**THE ST. JOHNS REVIEW**  
A. W. Markle Editor  
Published Friday of Each Week  
404 N. Jersey St. Phone Col. 321  
Subscription price \$1.50 per year.  
The REVIEW is entered at post office in Portland, Oregon, as mail matter of the second class under the Act of Congress of March 3, 1879.

**Y. W. C. A. Notes**  
The S. O. S. club met at Mrs. R. G. Brand's home Monday afternoon to tie a comforter and enjoy a waffle supper. Mrs. Brand has led this club for three years and the girls have given splendid service in many ways. They have ten members and Margaret MacGregor is the president.  
Thirty-five ladies met at the Branch last Wednesday afternoon to hear reports from the different departments of the Y. W. C. A. work. Miss Ethel Mitchell girls' work secretary, spoke on Girls' Work and the Summer Camp; Miss Fleming, night secretary at the main desk, told of her work and many interesting experiences; Mrs. Robert H. Tate, religious secretary, told about her work with Sunday Vesper services and Bible classes in all the High schools; 1153 girls called at her office for spiritual advice and help last year. Miss Beatrice Rundall, dean of James John high school, gave a very interesting talk on the work of the High School regarding health and higher education. More mothers of High School girls should have heard this address. Miss Mary Harney played three piano numbers in a most delightful manner. Mrs. George Hall gave a reading in her usual way, which was very amusing. Tea and wafers were served and all expressed their delight with the afternoon program.

Work on two programs to be given by the Y. W. C. A. Club girls is progressing nicely. Volunteer assistance from Miss Lola Murphy, Mrs. George Hall and Randolph Howard is much appreciated by the secretary and the club girls. The first program will be a play entitled "A Commanding Position" by three clubs, on June 3rd. The operetta "Florida" by "The Rose and Pearl" by the Rainbow Club will be given June 17th. Save these dates as you will get full value for your time as well as help the girls go to the summer camp.

Mrs. J. M. Shaw will have charge of the summer camp for girls the last week in July and first two weeks in August. Will parents of the club girls in planning their vacation time please co-operate with her, so that all the club girls may enjoy the outing when she is there to take care of them?

Mrs. Elizabeth Riggs from the "Peter Porter Circle of the G. A. R. of the Republic" presented the New High School Club of Girl Reserves with a very beautiful American Flag last Monday at their regular meeting. The girls will carry the flag in the parade on Decoration Day. She was accompanied by Mrs. R. O. Bachman from Portsmouth. The gift was most gratefully accepted with a short speech from the president, Miriam Bachman, and the club advisor, Mrs. Cordelia Smith, who has assumed the responsibilities of leadership of this club. They are rehearsing a short play to be presented soon at the Patton Home. Next club meeting will be held at Columbia Park.

The James John High School Club will entertain their mothers next Monday afternoon at the building. A most cordial invitation is extended.

Margaret Bartlett was elected president of the Haikut Club at their last meeting.

The Williams, George and Sitton schools participated in the Annual Book Review contest at the St. Johns Library on Tuesday afternoon, May 9th. The 5b classes of the schools were represented by the following: Lucie Avey, Midsummer Night's Dream; Beula Webb, Prince and the Pauper; Rosalind Ogden, Story of Babette; Walter Moery, White Fang; Marguerite Stark, In the Days of Queen Victoria, and James Coy of the George school whose review of Robinson Crusoe was judged best one given from point of view of the value of the book, English delivery, spontaneity and naturalness, critical rather than narrative review and poise. The winners of the contest will represent their locality at a program to be held later at Central Library. The reviews were all interesting. The 6th grade at the Williams school under Miss Moriarity's guidance added agreeably to the program with their presentation of the Crowning of Peace, a patriotic playlet.

Remember that J. O. Bailey is a candidate for State Senator and D. C. Lewis a candidate for State Legislature. Both are for local men. Surely St. Johns wants representation in both houses. The opportunity is at hand and it is up to you, Mr. Voter.

Hall & Davis, the tonorial artists, are now nicely located in their attractive new quarters in the Glover & Allen building on North Jersey street.

The Bachelor Club will hold their thirteenth annual ball in the skating rink this, Thursday, evening. This is an event that is eagerly looked forward to by a large number.

St. Johns Branch Sunday school of the Church of Jesus Christ in Bickner hall every Sunday at 10:30. Everybody welcome. Sunday, May 14th, being Mothers' Day, the Sunday school will give a recital and a few solos will be sung by Mrs. Christensen and Miss Pierce and Miss Wood, and all will be thankful in their hearts for Mother.—Rep.

A most enjoyable entertainment took place in the James John High School building Wednesday evening of last week, under the auspices of the Parent-Teacher Association of Williams, George and Sitton schools. A fine program was enjoyed by the large number in attendance. A most interesting and highly appreciated feature was pictures shown and a talk given by Mr. T. J. Monahan on Pioneer Days in Oregon. Mr. Monahan's forty years in St. Johns has splendidly adapted him to bring back the days of yore.

The Oregon Branch of the Women's Home and Foreign Missionary Society will hold their Nineteenth Annual Convention in the United Evangelical church of St. Johns on May 17-19. An interesting program has been arranged for each day and evening. Miss Betha Magnew, a missionary on furlough from China, will deliver addresses on Thursday afternoon and Friday night. Miss Magnew is also an Oregon girl. All are invited to attend, especially missionary societies of other churches.

**MONSTERS OF DISTANT PAST**

**Proof That Birds Capable of Lifting and Carrying Off Full-Grown Men Once Existed.**

Recent scientific discoveries in various parts of the world go to prove that in times long gone by there were birds big enough to lift a man into the air without difficulty, observes a London Tit-Bits writer.

It is well known that an eagle with a five-foot spread of wings can lift a lamb weighing ten pounds, and that a bird can generally lift one-half more than its own weight. Many of the enormous birds of ancient times weighed many hundreds of pounds, and some of them had a spread of wings which would cover a present-day street car.

There once lived in the Rocky mountains of America a race of parrots seven feet high. One nearly complete skeleton of this remarkable species has been preserved, and fragments of others have recently been dug up. These parrots are supposed to have trodden the earth about 3,000,000 years ago.

Another amazing creature was a running bird of prey of the heron family. It had a head larger than that of a horse, with a huge sharp beak, and was eight feet high. Like the parrot, it could not fly to any height, as its wings were not large enough to support it.

In the island of Madagascar there used to be an enormous bird called the aepyornis. This creature was ten feet high and laid eggs thirteen inches long and three feet in circumference. It is supposed to have become extinct only a little more than a century ago.

Although the aepyornis must have been a sufficiently awe-inspiring sight, the "giant moa" of New Zealand, which stood 14 feet high and weighed at least half a ton, must have been even more so.

**FINGER PRINTS NEVER CHANGE**

**Not Even the Smallest Variation Takes Place From Infancy to Extreme Old Age.**

The use of finger prints as a means of identification was first made practical and put into operation by Sir William Herschel of the Indian civil service in the police department of Bengal. The lineations of the thumb and fingers have, however, attracted the attention of scientists for at least a century.

The ridges and patterns are of four primary types. First, arches, in which the ridges run from one side to the other, but make no backward turn; second, loops, in which some of the ridges make a backward turn but are devoid of twists; third, whorls, in which some of the ridges make a turn through at least one complete circuit; and fourth, composite, where two or more of the first three patterns are combined in the same imprint.

It has been demonstrated that these designs persist unchanged in the smallest detail throughout the individual's life, and that there are no two persons whose imprints are identical. The design on the fingers of a new-born infant are easily recognizable in the same person in old age.

**Predicted the Phonograph.**  
A prophecy of the phonograph may be found in Cyrano de Bergerac's "Voyage to the Moon." Cyrano's imaginary traveler tells of a wonderful book presented to him by a lunar inhabitant, which had neither leaves nor letters, a book made wholly for the ears and not for the eyes.

"When anybody has a mind to read it, he winds up that machine with a great many little springs, then he turns the hand to the chapter which he desires, and straight as from the mouth of a man, or a musical instrument, proceed all the distinct and different sounds which all the lunar grandees make use of for expressing their thoughts instead of language."

There was a wild and frenzied scatterment. Men, white-faced and staring-eyed, fled as if pursued by a pestilence. They dropped whatever they had in hand and stood not upon the order of their going, but departed like frightened rosbucks, hitting only the high places as they went.

"Why are the people fleeing?" we asked.

"A candidate who calls himself the Friend of the People has just come to town," replied an innocent bystander who had no vote.—Kansas City Star.

Vote right on the 19th.  
J. B. Fletcher is completing a new business building on North Jersey street.

Today Mr. and Mrs. T. J. Monahan are keeping open house to their friends in celebration of their golden wedding.

The God of all nature is Blossom in Winter, Spring, Summer and Fall.  
The Sunshine and Oceans coration, North, South, East and West it is all.  
J. W. Gete.

A representative of A. A. Muek visited a few different localities and discovered very little opposition to his candidacy. Especially is this true of the Kenton district. The voters as a whole are evidently satisfied with Mr. Muek's record while serving as county commissioner. It is reported that the industrial plants on the Peninsula will support Mr. Muek.

Wanted—Lady to do general housework for family of four. Call 524 E. Richmond.

For Sale—Small Jersey cow, milking 2 gallons now; will be fresh Sept. 1—512 W. Mohawk.

For Sale—Four or five broods of chickens, very cheap. Call at 202 N. Fessenden.
