Oregon and Washington Elberta Peaches are in great abundance this week and very cheap. If you can use any more get them and help to keep them from spoiling.

While the best Bartlett Pears are gone there are plenty of other kinds. Prunes and Plums are coming, too and next week will be the time for Italian Prunes; the rain may spoil them though.

It is the time of year now when one thinks of Syrups and Hot Cakes for breakfast. We have so many kinds of Syrups that we cannot enumerate them here, and Pancake Flours are also of many kinds. They are all good and we sell them at a reasonable price.

The new packs of canned goods are coming in and we will soon have plenty to say on that subject.

TEN YEARS FROM NOW

Ten years from now, will you be envious of your friends or will they be envious of you? It depends on what you do with your money NOW. If you spend all there is no chance of your getting ahead. If you save a part of what you earn, you will be in a position to greet Opportunity with a smile when it knocks at your door.

It is surprising how quickly savings accumulate. Almost before you know it, you have built up a Savings account that you thought hardly possible. And you did it without any hardship or self-denial. The interest we pay helps your savings grow. If you haven't already started a Savings Account, do so without further delay.
