It is now pretty well assured that the proposition of voting up on bonds for the construction of a high bridge at St. Johns will go upon the ballot at the November election. That such a bridge here would prove the greatest kind of a boon for the Peninsula is well realized. Not only would it increase property values, but add largely to the business transacted. The annoyance of waiting on the ferry would be eliminated, and the time of reaching the business center of Portland would be greatly lessened. As a driveway it would have no superiors, and as a convenience it would be immense. Get out and boost.

Save time, trouble and money at Curran's For Drugs.

There can be no doubt that St. Johns deserves and is entitled to better street car service. The people here have been quite patient in the hope that better service would be installed. But now they feel that it is high time that something should be done. As ably pointed out by speakers at the Community Club meeting on Tuesday evening, the service afforded is far from being in keeping with the progress being made on the Lower Peninsula. Several solutions have been advanced, and it is to be hoped that the company will at once get busy and give us the better service which we are so richly entitled to.

We have given fourteen years of good drug store service in St. Johns. Curran's For Drugs. Do not neglect to send in your news items.
