Los Angeles. — General Passenger Agent Thompson of the Southern California railroad has received a telegraphic message from the main office in Chicago that the Santa Fe had decided to make another aggressive move in the rate war now under way. Mr. Thompson was notified that the Santa Fe Company had issued a circular to all connecting lines authorizing them to sell the reduced rate tickets to San Francisco via Mojave and return via Ogden, or vice versa, or over any lines on which the Southern Pacific had authorized them to use its cut-rate tickets. The notification fur-ther stated that stop-over tickets will be allowed at any point in California on these tickets within their limit; also that the same regulations which govern the Midwinter Fair tickets will be in force on the Santa Fe tickets in question the Atlantic and Pacific road has with the Southern Pacific as regards traffic over the Union Pacific and other trans-

John Hansen Acquitted.

San Franci of the Second trial of John Hansen, the Seamen's Union patrolman, who was charged with attempting to blow up the Ethel and Marion with dynamite on April 3, 1893, has been concluded. The jury returned a verdict of not guilty. The testimony was practically the same as that given at the first trial, when the jury disagreed. The principal witness for the prosecution was Harry Hendrickson, who claimed to have been with Hansen when he attempted The constitutionality of the tide-water

The claim of the Northern Pacific to control of the tide lands and harbor line along its land grants in Washington near Tacoma was denied in a decision by the Supreme Court in the case of Prosser and others vs. the Northern Pacific. Jus-tice Gray also delivered this opinion. He held the question to be whether the charter giving the land grants to the railroad authorized it to monopolize the harbor. The court held that every State but that the priority of the two wills has the right to define its harbor lines could not be determined, and therefore and regulate buildings upon them, since a general system was necessary, and that private parties could not be permitted to control portions of the lines. The in-junction against the Harbor Commis-sieners asked for was denied as against public policy. The lower court was therefore sustained and the suit dis-

The Greenland beauty listens attentively, but again declares that she will not accept the man as her husband.

"Very well," goes on the missionary; "I do not wish to force you. I shall easily find another wife for so good a fellow."

The missionary then remains silent as though he looked upon the incident as closed. But in a few minutes she whispers, "But if you wish it"—

"No," answered the pastor, "only if"

Land plaster is good.

That it is bad policy to allow the liquid manure in the liquid manure in the liquid manure. Land plaster is good.

That, if it is possible, a water-tight gutter should be built beneath the stable floor to contain the liquid manure for more in the cow stables. An iron grate from the cow stables. An iron grate may be built so that the hind feet of the cows may stand upon it and through which the droppings may fall into the gutter, which should be cleaned out as DAIRY PRODUCE.

dairyman.

That it does not pay to feed two dairy cows and get a product in milk which should be got from one.

That winter dairying will pay the man who will give it his best attention, but not otherwise.

That overcrowding the cows in the stable is a direct bid for tuberculosis in the base!

That the dairyman who undertakes to do without an icehouse is working along wrong lines.

That, while ensilage is a good kind of feed to use, it is not essential.

That the best butter is made from cream ripened uniformly.

That it pays in marketing butter to put it up in neat packages. Some people are willing to pay for appearance in butter as well as other things.

That the World's Fair dairy test goes to prove more emphatically that the dairy cow is a machine capable of the most wonderful results under the right kind of care and feed.

That it is the excess over maintenance that pays a profit to the dairyman. A cow should receive 65 or 70 per cent more feed than her maintenance requires.

That it does not pay to sell the best cows from your herd because you can get a few dollars more for them than for poorer ones. We do not pull up the big plants to give the little ones a chance.

That unless dairymen are testing their cows individually they can't tell whether each animal is paying a profit or entailing a loss. However, it is a very important thing to know. Corres—Costa Rica, 23c; Rio, 22@23c; Salvador, 22c; Mocha, 26½@28c; Ar-buckle's, Columbia and Lion, 100-pound
