WASHINGTON STATE CAPITOL.

Find of a Mexican Prospector Proves a Union for Washington's State capitol

stock of both corporations is owned in great part by the same persons. Various reasons are surmised for the selling out of the Pacific Improvement Company. One is that Mrs. Stanford, who is a heavy stockholder, is anxious to secure a large amount of ready cash in order to carry out the wishes of her late husband. Another reason is that the affairs of the Pacific Improvement Company have not been prosperous lately, and that its days

the people are flocking to the new fields as fast as they can. The first news was brought to Los Angeles by State Senator Del Valle, who returned from Red Rock. He brought with him specimens haphrared, which are so full of free gold, running in size from a speck to the dimensions of a pea, that it is ne exaggeration to say that, the ore must average a value of many thousand dollars a ton. The placers around Red Rock, which have been worked for several months, have caused quite a little settlement to spring up. On March 30 a Mexican inhabitant of the camp discoverd this ledge in question about nine miles west of the placers. A shaft has been sunk quite deep, and the ore is richer as it goes down. There is none of it in which the gold is not distinctly visible, and most of the placers are literally studded with it. Senator Del Valle says that the assays show almost incredible returns, but this Senator Del Valle says that the assays the supervising inspector of steam ves-show almost incredible returns, but this sels, does not differ materially from the show almost incredible returns, but this is plain to see on examining the specis which he brought. The quartz is held at Monterey. soft, and the gold particles are so readily extracted that a man with crude means can get a dollar or so in a few minutes. ledge is 4,000 feet above sea level and wood and water are scarce, a few small springs being the only supply of the latter. The Senator says people are rushing in by the hundreds, all bent on locating claims, but besides this bonanza nothing else has been found which promhowever, show good returns.

CHEAPER GRAIN RATES

made by the Interstate Commerce Com-lit is safe to say that the total pack for mission in the Pullman and Ritzville the year will not reach last year's figures. cases have convinced the people of Walla Walla county that a reduced rate can be secured for the transportation of grain has notified the Interstate Commerce charge of the academy before the beg from Walla Walla to Portland. At a Commission that it is in no sense a party ning of the school year in September. from Walla Walla to Portland. At a meeting of merchants and farmers the matter of bringing a case before the commission was placed in the hands of a committee, consisting of F. W. Paine, Milton Evans, Sol Center, Henry Kelling, Miles C. Moore, M. Baumeister, M. McCarthy, W. S. Gilliam, J. B. Gehr, Daniel Stewart, Jesse Drumheller, N. F. Butler and David Miller. This committee organized by electing Milton Evans Chairman, Henry Kelling Secretary and M. McCarthy Treasurer. The committee will ask for a rate of 1 cent per ton the traffic rate made by the Western Passenger Association. In a telegram sent to the commission the traffic rate made by the Western Passenger Association. In a telegram sent to the commission the traffic rate made by the Western Passenger Association. In a telegram sent to the commission the traffic rate made by the Western Passenger Association. In a telegram sent to the commission the traffic rate made by the Western Passenger Association. In a telegram sent to the commission the tompany explained that the proportion of the fare from Ogden to this city is a part of the through rate from Ogden to California points. It will decline to accept any tickets sold at less than the full through rate from Atlantic to Pacific Coast points. The fact is mentioned also that the Southern Pacific took no part in the rate-cutting of the Union Pacific and M. McCarthy Treasurer. The committee will ask for a rate of 1 cent per ton per mile. The present rate from Walla Walla to Portland is 14.1 cents per bushel. If the rate applied for is given, it would be 7.35 cents per bushel. As Walla Walla county ships annually 3,000,000 bushels of grain, this saving of 6% cents per bushel would add much to the prosperity of the farmers of Walla Walla. This committee is actively at work, and will find no difficulty in securing funds to carry the cases before curing funds to carry the cases before

THE TIDE-LAND DECISION.

Annoyance and Litigation.

OLYMPIA.—It would appear from the recent decision of the Supreme Court in the case of Smith against the Commistions of Public Lands that the State is sioner of Public Lands that the State is liable to be deprived of valuable tide-land reserves, unless there be some legal means of avoiding it. All this is attrib-utable to the local tide-land appraisers the Commissioner of Public Lands a plat of natural overer beds in their several counties. The inference drawn from the decision is that, there being no such plats filed, the legal presumption is there are no such beds; hence the Commissioner must issue a certificate of purchase at the rate of \$10 an acre, although the fact is well known that such purchaser is acquiring valuable oyster beds, which it was the intent of the law to reserve from sale. No doubt an effort will be made to avoid such loss. Possibly steps may be the Commissioner of Police Lands a piral of natural ovater beds in their several counties. The inference drawn from the decided, is worth about \$4,000,000\$. Only 1984, and the bonds of said company shall be received by the United States as herein provided and paid for said amount. The bonds to be received to the questions in the same to costs of litigation and other expenses (which the successful counties, Florence Blythe, estimates at the rate of \$10 an are, although the fact is well known that such purchaser is acquiring valuable oyster beds, which it was the intent of the law to reserve from saile. No doubt an effort will be made to avoid such loss. Possibly steps may be made another call for warrants, which then the fact of the law to reserve from saile. No doubt an effort will be made to avoid such loss. Possibly steps may be made another call for warrants, which the most of the law to reserve from saile. No doubt an effort will be made to avoid such loss. Possibly steps may be made on the fact is find that of the law to reserve from saile. No doubt an effort will be made to avoid such loss. Possibly steps may be made another call for warrants, which the successful the property and to the discontinuous and carried by a mortgage covering all be received by a mortgage covering and costs of trial and to give \$2,000 bond of the terms of this mortgage the Union Pacific beginning with the versal point of said amount. The bonds to be received by the United States are to run 100 years, to find any to give \$2,000 bond of the affect and the affected animals had been imported in such numbers during the large versal been imported in the suffered animals had been imported in such numbers during the large sum of \$2,400,000 of the the fact is well known that such the total for warrants, which the successful the property and to trade the affected animals had been imported in such numbers

ers to file a plat with the Commissioner, they being the only agents of the State authorized to do that duty. Further, number the decision the Commissioner of Public Lands is authorized and compelled to sell tide lands unless there exists a contest, and the appeal board has no authority except to hear a contest.

Attorney-General Oiney has appointed John M. Gearin an Assistant District Attorney for Oregon to assist in the prosecution of the Chinese and opium-smuggling cases.

Pacific Improvement Company have not been prosperous lately, and that its days of usefulness as an auxiliary of the Southern Pacific have passed. The officers of the company, however, deny it is the intention to the solve the corporation. The sale was a cude over 125,000 acres of land, scattered over the States of California, Oregon, Nevada and Utah. Some of it is improved and some not. Also included in the list are 125 townsites, comprising such places as Reno, Truckee, Corning, Willows, Montague, Merced and others on the lines of the Southern Pacific and its branches. Near Santa Barbara are 4,000 acres, and in Siskiyou county are 32,500 acres, 15,000 of which are under fence. The great Hotel del Monte at Monterey will also probably be placed on the market, though this is not decided. The property at Monterey comprises 14,000 acres. Pacific Grove and El Carmelo near Monterey and the big hotel at Castle Crag near Mount Shasta will also be sold.

Tacoma.—The estate of the late M. C. Sullivan is estimated by S. E. Marshall, are to constitute a continuous body. They are given the power to establish a name for the body and to fill vacancies by electing new members so the quota of twenty-five shall be preserved. Section 2 of the bill provides that the Librarian of Colgress shall set aside a chamber in the new Congressional Library for the use of the body, with attendants, lights and the use of all books and materials in the possession of the library. Spofford's bill also adds a provision that the body shall furnish reports to Consequence of the New York of fice of the Thiel elective agency, who was sent here by Mr. Thiel will showing a name for the body and to fill vacancies by electing new members so the quota of twenty-five shall be preserved. Scation 2 of the bill provides that the Librarian of Congress shall set aside a chamber in the new Congressional Library for the use of the body, with attendants, lights and the use of the body, with attendants and the use of the body, with attendants and the use of the body

Despite the fact that assignment to the command of the Pa-all the conditions so far have been favor-able for a heavy run, fish are still scarce, and is directly connected with the estabcific squadron is of a temporary nature ment will also be used in our navy. and is directly connected with the establishment of a coaling station at Pearl should be any danger of foreign inter ference during the coming elections. Admiral Walker has been selected for the superintendency of the Naval Academy to relieve Captain Phythian, whose term expires in July next. It therefore fol-lows that when Rear-Admiral Walker was assigned to the command of the Pa cific squadron the department had a special object in view in sending him short. He may not return to the United States in time to relieve Captain Phyth ian in July, but he is likely to take

NEW FOOTBALL RULES.

of Play.

New York .- The revision of the play ng rules of intercollegiate football is practically completed. The former ac tion of the committee has been ratified excepting only that it is decided to allow that the Southern Pacific took no part in the rate-cutting of the Union Pacific and is neither fighting for nor against that company.

Chinamen Won't Go.

San Francisco.—As many predicted, the Chinese took advantage of the Midwinter Fair concession to bring in quite a number of their countrymen intent on making a home in the United States. It was represented that after the fair was over they would return to the Flowery prevent the almost unavoidable rough ness of the plays as the rule now stands. The rules framed by the experts will now be codified by Walter Camp, the Secretary of the Board of Experts, and he will forward a copy to every member of the committee for his signature.

NEW ORLEANS .- The Supreme Court has decided the matter of the State vs. the Olympic Club. It affirmed the decision of the lower court, which was by a majority vote of the jury in favor of the club. The case has been pending for months, and the decision will permit re-sumption of glove contests in Louisiana.

WASHINGTON CITY NEWS.

The President has nominated Pay Director Edwin M. Stewart to be chief of the bureau of supplies and accounts and Paymaster-General with the rank of

Secretary Herbert has reduced the sentence of Commander Heyerman, found guilty by court-martial of causing the wreck of the Kearsarge, from two years' to one year's suspension from duty. Lieutenant Lyman was sentenced to one year's suspension and a public reprimand. Herbert set aside the rep-

Lieutenant W. A. Beeler of the navy

hydrographic office has returned from a trip to Europe on the Weimar, made by a thority of Secretary Herbert to test the new aid to navigation, the solarom-eter. This instrument is intended to re-place the sextant aboard ship in show-ing the exact position of the vessel. It has many points of advantage over the sextant in accuracy and freedom from long arithmetical calculations. One feat-ure of the greatest value is the capacity of the instrument to record observations in fogs, when the sun or stars shine dimly or the horizon cannot be seen, and the sextant is useless to locate the ship. The Lieutenant reports that the instru-ment worked admirably on the Weimar Washington.—There can no longer be under all kinds of weather, and that the any doubt that Rear-Admiral Walker's North German Lloyd Company is making arrangements to equip all their ves-sels with it. It is probable the instru-

Secretary Herbert does not intend that Harbor and for a vigorous enforcement fleet on their summer cruises shall make such a mistake as to give poachers warning of their approach. The coal he has sent to Ounalaska for the ships is of a smokeless variety from the Comox mines of British Columbia. The selection brought forth a voluminous patriotic protest from residents of the State of Washington, and the Secretary has sent a letter to Commander Clark, the flag officer of the navy at Port Townsend, directing him to have all the vessels of the fleet to take sufficient coal from the Fairhaven mine in Washington to enable them to reach the coal supply at Oun-alaska and to make a full report of its quality. The instructions continue: "As this coal emits a very black smoke, it is not deemed expedient to use it while the vessels are patrolling Behring Sea. After reaching the base of the coal

supply, which has already been con-tracted for, as far as practicable no other coal will be used." Attorney-General Olney has sent to Congress a draft of the bill prepared by the Department of Justice for the reor-ganization of the Union Pacific and the readjustment of the claims of the United of the maturity of said bonds, as if no payment had been made or credit given thereon. greeable in the list of equine habits. it. The "Englishman in Paris" speaks of a salmi served soon after the beginning of the siege of the Commune, and the very memory of it seems to have made his mouth water. Yet the town mice scarcely gave the experiment a fair trial, for they had been snared on the bastions between the outer boulevards and the fortifications. There is no reason why squirrel should not be excellent. for the squirrel would hop into the saucepan ready flavored after having fattened on nuts and fragrant foliage.

Squirrels are small and shy and difficult to catch, so that we do not hear much of them even in gypsy cuisine. But the hedgehog figures frequently at those sylvan repasts, though he is hardly big enough to be sent to table as a piece de resistance. The primitive manner of cooking him supersedes the most costly refinements of elaborate batteries de cuisine. The elephant's foot, or rather the slice below the pastern, which is a famous dainty in eastern hunting camps is treated on precisely similar principles, which shows that the simplest cookery of all nations has much in common, like their folklore. Shakespeare's British hedgepig, like its cousin, the porcupine, by the way, is shrouded in a plastic tenement of clay. Then he is laid to temporary rest in a bed of smoldering cinders. When supposed to be done to a turn, the dwarf pig is dug up, and then the prickly skin is detached with the splitting of the case of clay. All the generous juices, with their bouquet, have been confined and transfused.

Was a detailed to have recovered. Horses invariably acquire the habit by succeeding in breaking and halder or brille during their colthodor, and the prickly swing the surprise and habit by succeeding in breaking and halder or brille during their colthodor, and the prickle four balance in the labor to be done to the surprise of the colt of the surprise and the prickle for the surprise frequently at the surprise are surprised to the colt of the surprised for the s In Britain, if a horse is warranted free rom vice and turns out to be a halter

To Keep Cider Sweet.

The Scientific American tells how to keep cider sweet. It says that pure, sweet cider that is arrested in the process of fermentation before it becomes acetic acid, or even alcohol, and with carbonic acid worked out, is one of the most delightful beverages, and gives the following scientific method of treating it to preserve its sweetness: When the saccharine matters by fermentation are being converted into alcohol, if a bent tube be inserted into the bung, with the other end into a pail of water, to allow the carbonic acid gas evolved to pass off without admitting any air into the barrel, a beverage will be obtained that is fit nectar for the gols. A handy way is The drum or tympanum of the ear is a small air chamber, with hard, bony surroundings, ventilated by an air passage about 114 inches long, called the sage about 1½ inches long, called the enstachian tube, which passes forward and inward from the anterior part of the throat behind the nostrils. The atmospheric pressure required on the iner side of the drum to counterbalance that of the outer side is provided for by the communication of the enstachian the communication of the eustachian bung is down. Get a common rubber tube with the throat in the acts of breathing and swallowing. Lining the Then turn the plug so the interior of the

> A correspondent of Colman's Rural World writes: "I have been unfortu-World writes: "I have been untormated and with my efforts at turkey-raising until last spring, and think my success since is due in a great measure to the observance of these rules: First, my gobbler was no kin to the hens; and second, before taking from the nest I gave each of the little fellows a grain of black pepper; when two or three days old put them in a close pen 10x12, and keep them up until strong, sny two or three weeks, before giving them their freedom. Feed mainly stale bread soaked in sweet skimmed milk or water with occasional curd, boiled until the curd separates well, but not until it's leathery. Third, I furnished plenty of grit, Kaw river sand, under the shade of a tree. I have seen them coming from a grassite then how they would devour the sand, then how they would devour the sand. They are less trouble with a turkey hen, but gentler when raised by a chicken hen."
