Well, why not? It is simply the same argument upon which a high protective tariff is based and if it is sound in one the U.S. senate. We in this county case it is sound in the other. Keep out foreign made goods, thus reducing the supply, put on a duty to increase the high tariff is a sort of perpetual strike, while these disturbances among working men are only periodical. The law of supply and demand, under which business is most profitably carried on, is of little consequence so long as a trust or a strike can be relied on to change the natural condition of things.

Suppose the duty of 75 cents a ton as taken off Canadian and colonial coal. It is easy to see that the entire Atlantic seaboard cities could readily supply themselves with bituminous coal without making any demand on the coal without making any demand on the mines of Pennsylvania, which is the mines of Pennsylvania, which is the more of the strike and the point from employing six Catholic nums as teachers in the schools.

"Castoria is an excellent medicine for children. Mothers have repeatedly told me of its good effect upon their children."

DR. G. C. ORGOOD,

Lowell, Mass "Castoria is the best remedy for children of which I am acquainted. I hope the day is not far distant when mothers will consider the real interest of their children, and use Castoria instead of the various quack nostrums which are destroying their loved ones, by forcing opium, morphine, soothing syrup and other hurtful s down their throats, thereby sending hem to premature graves.

DR. J. F. KINCHELOR,

"Our physicians in the children's department have spoken highly of their experi-ence in their outside practice with Castoria, and although we only have among our medical supplies what is known as regular

products, yet we are free to confess that the merits of Castoria has won us to look with favor upon it."
