THE INDUSTRIALS.
WASHINGTON CITY NEWS.
The Senate Committee on Indian Affairs has authorized a special report on Wagon's bill for the opening of settlement of the Uintah and Uncompagnie Indian reservations.

The Secretary of the Interior has forwarded to the War Department a request that troops in New Mexico be ordered to arrest Navajo Indians, as a report to the department says they are off the reservation and committing depredations.

The House Committee on Indian Affairs has decided to grant the request of the Osage Indian delegation, which appeared before it recently, to detach the Osage reservation from Oklahoma and attach it to the Indian Territory. An amendment to the bill, which was proposed in the Indian appropriation bill.

The National League for the Protection of American Industries is opposing items of the Indian appropriation bill amounting to nearly \$400,000. Among them are the St. Boniface, Banning, Cal., \$125,000; Holy Family, Blackfoot, Mont., \$125,000; Ignacia, Jocko, Mont., \$45,000; Kate Bate, Unstilla, Co., \$6,000.

Representative Donnell of Washington has introduced a bill to appropriate \$100,000 for ascertaining the subterranean water supplies in the States of Idaho, Montana, Washington and Oregon, and to provide for the investigation and ascertaining the localities at which artesian water can profitably be dug. It is proposed to have the work done by the geological survey.

Representative Herriman has secured an appropriation from the treasury, which declares that the President can release any portion of a forest reserve. The question was raised in connection with the proposed release of the Cascade reserve. The land office has prepared a proclamation, to be submitted to the President, restoring several townships in the mineral district. The President will sign the proclamation.

Mr. Outwater's report on armor-plate investigation directs the Naval committee to proceed immediately with the investigation. It is to cover all the work done by the Carnegie Company since its government contract, including the cost of the materials and the cost of the labor.

THE FRENCH CABINET RESIGNS.
Paris.—In the Chamber of Deputies during the debate of the question whether the Minister of Public Works had authority to allow employees of State railroads to attend the congress of railroad men the Premier demanded the adoption of the order of the day. The motion was rejected by a vote of 275 to 225. Premier Casimir-Perrier thereupon left for the Palais Bourbon. The Ministers left the private room in which they had been conferring, and proceeded in a body to the Palais d'Elysee and formally tendered their resignations to President Carnot. The attitude of Premier Casimir-Perrier tends to confirm the most general belief that he rode for a fall in this contest, as he seemed to do in the cabinet support in every way in the confidence of the approaching election for President of the Republic. He is apparently being abetted by President Carnot, who thus has broken the pact entered into when M. Casimir-Perrier accepted the Premiership. On that occasion M. Carnot promised that he would not stand again for the Presidency, and that the attitude of Premier Casimir-Perrier, who thus would almost inevitably become the President of the Republic.

ROSEBERY TALKS.
Favors Limiting the Powers of House of Lords.
The attitude of Premier Casimir-Perrier tends to confirm the most general belief that he rode for a fall in this contest, as he seemed to do in the cabinet support in every way in the confidence of the approaching election for President of the Republic. He is apparently being abetted by President Carnot, who thus has broken the pact entered into when M. Casimir-Perrier accepted the Premiership. On that occasion M. Carnot promised that he would not stand again for the Presidency, and that the attitude of Premier Casimir-Perrier, who thus would almost inevitably become the President of the Republic.

A WOMAN'S CLUB AT BAY RIDGE.
Brooklyn has been called the City of Churches, and today it deserves to be called the city of suburbs, for no other city is surrounded by such a variety, and all equally desirable. One of the least known perhaps, and undeservedly so, is Bay Ridge. The spacious parklike grounds of the older places, belonging to such families as the Van Brunt, Perry, Thomas, Constant, Townsend, Richard Grant White and others, is equally well known. Five years ago a number of earnest women organized a small club which should devote itself to culture, by well directed and diversified reading, thoroughly discussed, and also to take a practical and intelligent interest in some local need for the good of the community.

For fifteen years there had been at the Athenaeum a small library of unattractive books not adapted to popular need. Through the yearly efforts of this club the books are being catalogued in some local need for the good of the community.

The women have telegraphic and telephone communication, which did not exist until they made it possible. They have also established a penny provident for the small money deposits of poor children. There were ninety-eight deposits in seven weeks and over \$100 received in small sums to secure funds for the work. One meeting of the club has the sending out of circulars once a year asking for one dollar contributions. Perhaps 200 will respond at the club's weekly meetings, which take place at the homes of members. They saw for the semiannual fair they hold in the Athenaeum rooms, while one or two members read from chosen subjects which are afterward freely discussed.

Last year Mr. E. W. Bliss, who owns the old Henry C. Murphy place, gave the use of his magnificent new carriage house for an autumn dance. This night \$200, which was used for their library work. The programme for the last meeting, held at the residence of Mrs. Frederic Bard, one of the club's members, was readings and discussion on art and music. Mrs. Walter Despard read several interesting articles on music, the late Mrs. Mary Anne, who was a personal notice about prominent musicians of the day. Miss Constant was to have read on art, but the club entertained a member from the Thursday afternoon of Roslyn the subject was deferred to the next meeting. Mrs. Frederic Bard was an exquisite little songstress. Her voice was a well trained, synthetic voice, and song and singer were equally appreciated, as was also a piano duet by Mrs. Despard and Mrs. Plympton.—Brooklyn Eagle.

THE PORTLAND MARKET.
WHEAT.—The local market is dull and nominal. Export values are 77 1/2 @ 80c per cental for Valley and 75c per cental for Walla Walla.

Wool.—Oregon fancy, 17 1/2 @ 18c; fair to good, 16 1/2 @ 17c; common, 15 1/2 @ 16c; inferior, 14 1/2 @ 15c; extra, 19 1/2 @ 20c; superfine, 22 1/2 @ 23c per barrel.
