Mr. Huntington's Two Houses

The recent purchase by Mr. C. P. Huntington of Mrs. Colton's costly mansion on Nob hill, in San Francisco, has

given rise to rumors that Mr. Huntington and his family intended to make the California metropolis their permanent place of residence. A report has also been freely circulated that Mr. Huntington had offered his new house, at Fifth

avenue and Fifty-seventh street, for sale, These reports, with gossipy elaborations, have been the talk of certain clubs and cafes for the past few weeks, and the names of two or three millionaires have been named as the probable purchasers of the unfinished Huntington palace in this city. When Mr. Huntington's attention was called to the manner

which Dame Rumor was dealing with his affairs, he authorized a denial of the report that he contemplated going to San Francisco to live.

He proposes to stay right here, and when his new house is completed he will move into it. There has been no intention on his part to sell the place. Mr. Huntington bought the Colton house in San Francisco because he is obliged to spend several weeks each year in Cali- which has painfully bowed its head half fornia, and he is not particularly fond of to earth and labored snail-like across the tornin, and he is not particularly fond of hotel life. He thinks that he can afford to maintain two residences—one in New York and one in San Francisco.—New York Times. Expense of the Peary Expedition. The total expense of the Peary and the Peary relief expeditions was within \$25,-000, or, approximately, within one-tenth of the amount that was involved in the very much less successful British north

the Austro-Hungarian expedition under Payer and Weyprecht of 1878-4. The contributions of knowledge

than I have since 1885. The Phermatan of geography or ethnology alone can rationally be considered to repay the moderate outlay of these two expedi-tions, a cost considerably below that which in modern times is sometimes paid for a painting. for a painting.

It is interesting to place here by way of comparison the cost of previous explorations. One of the earliest-that of Willoughby-conducted 300 years ago, required for its expenditure £6,000; that of Moor. in 1746, £10,000; the second German north pole expedition was covered by an appropiation of 120,000 thalers, or £11,000, while the Franklin expedition and the various ones sent out to ascertain his fate to 1854 cost £833,333, or over \$4,000,000,-Philadelphia Ledger.

What is undoubtedly the strongest natural gas well ever found in the Indiana belt is a roaring monster north of Muncie, Ind., which cannot be gotten under control. A few days since Wal ley & Spellacy, contractors, drilled in a well on the Spilker farm. Next day it was discovered that the pressure had raised to an enormous degree, and it has since increased until it has become impossible to anchor the well or do anything with it. It is impossible to force sledge hammer, crowbar or anything into the hole, and the gas roars until a man's voice cannot be heard within several hundred yards of the well. The earth trembles in a frightful manner. "You look very much pleased about omething," said a gentleman on a sub-to what the result will be. The well is estimated at over 10,000,000 feet, and dinarily a somewhat grim and stern faced the apparatus used to anchor the monster Jumbo well at Fairmount is useless.

Moreland picked up and fondled the mongrel. Perry's face was side by side People are manufactured by the Dr. Williams' Medicine Company, Schnec-tady, N. Y., and are sold only in boxes bearing the firm's trade mark and the mill scene was being swept up at the time. It caused the dog to sneeze, and wrapper, at 50 cents a box or six boxes for \$2.50. Bear in mind that Dr. Williams' Pink Pills are never sold in bulk or by the dozen or hundred, and any dealer who offers substitutes in this form is trying to defraud you and should b avoided. Dr. Williams' Pink Pills may be had of all druggists or direct by mail from Dr. Williams' Medicine Co.

Teacher-How many eggs does it take to make a dozen? Mamie (whose father k. ep a grocery) -Six good ones, four doubiful ones and two bad

THE NURSE'S DELIGHT.

Every experienced nurse knows the value of a remedy which, without being an anodyne, will relieve soreness of the limbs or tiffness of the joints and enable a patient to sleep quietly and naturally.

to steep quietly and naturally. Just such a remedy are ALLCOCK'S POR-outs PLASTRES. Placed on the chest or on the back, if necessary cut into strips and placed over the muscles of the limbs, they work marvels in the way of soothing and quieting restlessness. Being perfectly sim-ple and harmless in their composition, they can be used freely, and many a suffirer has thanked them for a night of quiet rest, grateful both to him and those who care for him.

HOME-MADE GAS PERFECTED AT Inst. No dirt, no ashes, ito odor, no danger. A perfect method of generating and burning gas from petroleum oil. For hearing and cooking. Fi s any stove; also adapted for furnaces, steam heaters and grates. Absolutely afe. No possi-oility of explosion and cheaper than any other fuel. Call and examine the latest invention. Agents wanted in every town and county in California, N vada, Oregon and Washington. These engines are acknowledged by expert en-gineers to be worthy of highest commendation for simplicity, high-grade material and superior workmanship. They develop the full actual horse power, and run without an Electric spark Batter; the system of ignition is simple, inex-pensive and reliable. For pumping outfits for irrigating purposes no better engine can be found on the Pacifie Coast. Coast. For holsing outfits for mines they have met with highest approval. For intermittent power their economy is un-questioned.

elaborate dresses that American women select to walk in and to wear at public

It was not Tennyson's favorite Shake-speare that was buried with him, as is being widely published, but another copy.

ish it must also be added that they are a little too fine. Laces and diamonds were rampant at the horse show, and gowns of silk and chiffon were common. In England the most elegant of women would have been satisfied to have ap peared in perfectly fitting cloth gowns, and, if they were needed, some magniff and, if they were needed, some magnificent furs, but they would have known
