WANT THE FLAG HONORED. Section of the French-Canadian Press Has a Plan. MONTREAL, September 2.—A section of the French-Canadian press is indignant at what they call an outrage on the part of the authorities who have charge of the provincial exhibit at Quebec. The difficulty lies in the fact that the French flag is not given official recognition. The Patrie says: "We ask all the exhibitors to erect the tricolor flag be made to float to withdraw the exhibition buildings and to withdraw rather than abide by the dictates of a pelicanian caste who is ashamed of being a Frenchman. Let there be no exhibition rather than allow France to be insulted. Therefore, if there is to be a fiasco, the people of Quebec will know whom to blame."

SCOTCH COAL MINERS. Ballot Shows Them in Favor of Accepting a Reduction. GLASGOW, September 3.—The result of a ballot among the Scotch coal miners on the questions involved in the present strike was announced to-day. The balloting shows 25,417 miners in favor of the proposal of the Miners' Federation to accept a sixpence reduction, with guaranteed wages for that basis for two years, and 20,942 in favor of insisting upon a shilling advance in wages. The mine owners declare that the balloting, which shows a majority in favor of accepting a reduction of sixpence, does not by any means put an end to the strike, for the reason that it will be impossible for them to guarantee even a minimum rate of wages for a period of two years. The owners assert that this cannot be done, inasmuch as most of their annual contracts have been cancelled by their subscribers.

FARMERS ARE BENEFITED. Saving to Them by Having Their Grain Bags Imported Free. SAN FRANCISCO, September 1.—It is estimated that free grain bags will mean a saving of \$75,000 a year to California farmers. The new tariff, however, went into effect too late to make much saving this year. The annual demand for grain sacks is about 30,000,000, of which California uses 24,000,000. The importation is about 25,000,000, and of the remaining 6,000,000 4,000,000 have been produced at the San Quentin prison and 2,000,000 at the California jute mills. The latter have now closed down, and it is claimed that the plant, valued at \$250,000, has been rendered useless by the free importation of bags. The average duty has been 1.65 cents a bag, and this will now be saved to the farmer. Since the enactment of the new law the price of bags has dropped from 8 1/2 cents to 6 1/2 cents.
