LOCAL EVENTS.

PORTLAND EXPOSITION-The manage ment of the Portland Universal Exposition has been assumed by a committee of Portland business men, composed of Van B. DeLashmutt, general manager, G. E. Sturgis, Julius Lang, J. F O'Shea and E. W. McConnell. and henceforth the fair will be strictly a Portland and Pacific Northwest enterprise. A great many changes will be Wright, G. C. Brownell, C. H. Dye, made in policy and methods of manage- Jennie White, Myrtle White, J M ment, and in many repects the fair will Taylor and Miss Myrtle Stevens. be made more attractive to visitors from outside the city. The admission to the fair is 25 cents, and this gives free range to visitors except into the special shows of the midway, all of which charge but 10 cents each, except the \$100,000 evelorams of the battle of Missonarv Ridge, which is 50 cents. These special shows are all well worth the price charged, and among them are some of the best attractions of the midway plaisance of the world's fair. The difficulty of the old management with the labor unions has been settled and the superb Portland Military Band is now delighting visitors with its splen-

END OF THE REDUCTION COMPANY. company, in the old cement mill, was extremely low. sold at sheriff's sale on Saturday to F. D. Ball for \$450. It consisted of two dynamos, each capable of running 1000 incandescent lights, an amalgamator and several large tanks, and was formerly valued at \$4000, but Mr. Ball's judg- Tuesday. ment was for nearly \$2000 for rent. The company was composed of three Ta coms gentlemen-Benson, Lewis and Askew-who claimed to have a new process for obtaining the iron from black sand on the Oregon seashore. They put in their plant here and were apparently successful, so a contract was entered into by which the sand was to be brought here in large quantities and treated. It is alleged that the contract price for the iron was too low, and the company counted on being able to also town on business Thursday. save the gold dust in the sand, which would have made the enterprise immensely profitable. After much experimenting the whole thing was abandoned more than a year ago.

SURVEY OF RIVERS .- At a meeting of the Port of Portland commission which was held Saturday afternoon the matter of securing a new survey of the Columbia and Willamette rivers was discursed at some length, all of the members present finally concurring in States engineers, to resurvey the rivers, Monday. so as to ascertain what damage was summer, to ascertain their present con- Tuesday. dition, and to make a report of the work accomplished by the commission, and how it has withstood the recent floods. The work of making a new survey and new charts is no small matter, but it is considered very essential, in view of the fact that the recent floods were unprecedentedly great, and the rapid currents and great masses of sediment brought down must have changed to some extent known channels.

A NEW GROCERY.-C. A. McMillan, who has been running a grocery store on 21st. lower Main street for about two years, has built a new store building on the staple and fancy groceries, provisions, flour and feed, tinware, notions, station. ery, etc., and will be pleased to see his old patrons as well as new customers. He delivers goods free and will continue to take orders in town and on Goose Flat. With a well selected stock, which he sells cheap for cash, he is able to on business Tuesday. He says J. P. constantly keep on hand a fresh supply Young will probably soon leave for of goods. He "turns" his stock rapidly and thereby has no shelf-worn gools on hand. Give him a call and you will be convinced. Remember the place, Monday, trying to have the valuation of Sunset City ad lition.

THE BROKEN FISH WHERL -- It has been found since the last issue of the Counter that Mr. Dodson's fish wheel was not cut loose by fishermen, but the ropes holding the scow were parted by the strength of the current of the river. Dodson has not nor had any ill will of the fishermen and we were misinformed last week in this particular, but the person who was suspected does not or never did fish, it being a personal matter altogether. The wheel did not catch a fish the two nights it "fishe!" and the night in question he was making a final trial, preparatory to remodeling his wheel scow.

HUNTING ACCIDENT-Alvah Com noas who had recently arrived from the East. In climbing over a fence, Commons slipped and fell in such a manner that both barrels of his gun were discharged, the shot entering the abdomen and coming out near the back of the neck. Death must have been instantaneous, coming up from San Francisco last His companion was but a few rods away week. and saw the accident. The deceased was a Scott's Mill black-mith, about 25 years of age, and left a widow, the burial there was in charge of the Odd

times, good time and hard time rings seats, which they are not entitled to Our new stock of rings, solid gold, plain, under the salary law. fancy engraved and with sets, are the finest rings we ever had. Some set found at Charm in & Co.'s: Antograph with diamonds, opals, pearls, garnets, a'bums, scrap aloums, photograph moonstones, single and in combination, albums, gold pens, stationery, knives, made for high grade folks who will razors, toilet ets, perfumes, Christmas have highest grade things. Three Leading Scientists

Proclaim the Superior Value of

Dr. Price's Baking Powder.

Scientists are devoting closer attention to food products. Recent examinations of baking powders by Prof. Long, Dr. Haines, and Prof. Prescott, were made to determine which powder was the purest, highest in leavening strength, most efficient in service, and most economical in cost. They decide that Dr. Price's Cream Baking Powder excels in all the essentials of an ideal preparation for household use. They write:-

"Chicago, March 28th, 1894.

We have purchased in the open market cans of Dr. Price's Cream Baking Powder and also of the other leading brands of baking powders, and have submitted them to chemical analysis. We find that Dr. Price's Cream Baking Powder is a pure cream of tartar powder, that is has a considerably greater leavening strength than any of the other baking

powders we have ever tested. PROF. JOHN H. LONG, Northwestern University, Chicago. DR. WALTER S. HAINES, Rush Medical College, Chicago. PROF. ALBERT B. PRESCOTT, Univ. of Michigan, Ann Arbet."
