Why, in less than six weeks she'd be making the poor man wear a frilled cap and a prepared chalk nose. A man's good looks go a long way with a girl, I'm ashamed to confess, and a jerky manner of talking, or a sissy walk, or a nervous movement of the hands will make a girl's teeth grind and her temper fray at the edges-that is, unless e's really and truly in love. Then he might be a tailor's dummy, noseless and cross eved, bewhiskered and with rouged cheeks, and she'll still think him the loveliest thing on earth."-Chicago Record.

In some parts of Sicily the birth of a girl is looked upon as such a misfortune that a black flag is hung out the window to proclaim the sad event. Having to be supported by the family as long as they are unmarried, and being obliged to dower the bridegroom, they are looked upon as expensive luxuries. Boys, on the other hand, are very soon self supporting, and when the time comes for marrying increase the family wealth by bringing home a bride and her dot. The girls live in seclusion, are most kindly treated, and at the age of 14 or 16 they are disposed of in marriage on a purely financial basis.—New York
