

LOCAL EVENTS.

THE BIKE RACE COMES.—Tom W. Winder, editor of the Warsaw (Ind) Hoop, who is endeavoring to ride around the coast and border line of the United States on a bicycle in 300 consecutive days or a daily average of 72 miles, crossing 33 states and territories, 220 counties, visiting 284 cities, towns and villages enroute, will reach this city on or about May 11, having started from New Orleans, La., on March 4, 1895. He is attracting great attention at all points through which he passes. Mr. Winder will stop in this city, and will be pleased to meet our wheelmen. Winder is acting as correspondent for a syndicate of city papers on this ride, and will be glad to receive any photographs of local scenery or buildings suitable for use in illustrating his letters. Pictures should have names and particulars plainly written on back. This bicycle ride is the longest ever undertaken, and should be successfully completed it will hold the world's record as long distance rider.

INDIVIDUAL COMMUNION CUPS.—At the communion service of the Congregational church on Sunday individual communion cups were used. The set consists of four oval-shaped trays, each holding 36 tiny glasses, and each glass has a capacity equal to a tablespoon. The trays are only about a foot long, each sets on four legs, and they are arranged in a compact tier, so that the whole may be carried about easily and with safety. The glasses are bell-shaped, flaring moderately at the top. In serving the communicants, each deacon takes a tray laden with glasses of wine and passes to the members, each of whom takes a glass and waits until all have been served. The same is done with the bread. Then the pastor and the congregation partake of the communion in concert, constituting an orderly and devout. A small socket on the back of the seat in front of each communicant receives the empty cup.

BOARD OF TRADE WORK.—At the regular monthly meeting of the board of trade to be held next Monday evening several matters of special importance will demand attention. A treasurer of the board is to be elected. Suitable action is expected to be taken with reference to the meeting of the state grand jury June 16 and 17 and the Chautauqua assembly July 10-20. Certain road matters that have reached an acute stage will be up for discussion. Final action is also expected to be taken respecting the long-talked-of descriptive pamphlet of Oregon City. All members of the board are requested to make a special effort to be present at the meeting 7:30 o'clock Monday night. J. M. LAWRENCE, Secretary.

TRYING TO BEAT UNCLE SAM.—John Wood, who, under the alias of McYatt, is now lodged in the Portland jail, was indicted under two counts for fraudulent practices with reference to the entry of government lands. The first count charges him with inducing Karl Johnson to appear and give false evidence before R. A. Miller, register of United States land office at Oregon City, and the second count brings a precisely similar charge against him for suborning P. August Johnson under the same circumstances. It seems that both Johnsons testified before Register Miller, at the instigation of Wood, that they had personal knowledge of the lands in question, lying in section 23, township 4, range west, when in fact they had never seen the lands.

STOLEN GRANT'S JEWELS.—Walter Janney and his wife, Ray Janney, better known as Ray Sullivan, connected with the Jones-Tripp-King burglars, were on Monday in Portland held to appear before the grand jury under bonds of \$100 each. Walter is accused of the larceny of Roland D. Grant's jewels, which were stolen last December, and his wife is charged with obtaining money under false pretenses.

SUNDAY TIME.—The Oregon City boats leave this place for Portland on Sundays at 10 a. m. and 2 and 5:30 p. m., returning leave Portland at 8:30 and 11:30 a. m. and 3:30.

INFECTED NURSERY STOCK.—Since the discovery of so many diseased fruit trees in Eastern Oregon by Fruit Commissioner Hobbs, which it was stated had been shipped from Canada, Commissioner Doehs is order to ascertain the facts in the matter, visited Canby and made a thorough examination of the nurseries in the vicinity. He found the stock in these nurseries pretty badly diseased. Quite a number of trees were "needed in," preparatory to shipment, of which about 90 per cent were dead, and of a large lot in nursery rows, 75 per cent were diseased. The nurserymen were honest in their belief that the trees were healthy until they were shown to the contrary by cutting the bark of the nursery stock. Adjoining nurseries were visited and found to be in about the same condition, except one or two large blocks of prunes. The various owners agreed to take up and burn at once all diseased trees which were too badly diseased to be saved by spraying, and will spray those not needed for fruit trees etc. His friends everywhere, when it is explained to them, as most people seem to have been under the impression that, when their trees are affected in any way, they would summarily chopped down and burned up. This is most erroneous idea, as it is the wish of the board to save the trees possible and to assist owners in doing so, and when this is made plain to them, they are willing to go ahead and do anything required to be done.—Oregonian.

PROBATE MATTERS.—Administrator of Sarah E. Pope filed final account and was discharged, except as to some New York city property, and that Thos. A. Pope have the south half of tract in block 4 of Oregon City. L. L. Porter, administrator of estate of Olive Achorn, made final report and was discharged. Petition of Mariah Garvey to be answered by Thos. Charman, administrator, on May 20th. Chas. Albright, administrator of partnership estate of Logus & Albright, asked permission to sell property, which will be granted on June 3d.

MORE OF "CAPTAIN WEBB."—"Captain Paul Webb, the daring submarine navigator," who broke his arm in his last plunge over the falls here, will be tendered a testimonial benefit at Cordry's on Saturday by his friends and admirers prior to his departure from Portland. His next daring feat will be to run the rapids at the cascade locks, plunge over the Snoqualmie falls, 188 feet high, and to run the rapids and plunge over the falls into the whirlpool at Spokane.

SERVING TIME

Is a duty which none can escape. Time waits for no man, but all must wait on time. We serve time by watching it for the public of Oregon City. Our clocks and watches keep the minutes of how time goes. What's more, there are sixty seconds to our minutes, which always stand approved as correct by the sun. There are no better time-keepers on earth than our clocks and watches; in fact, they keep better time than Theodoros Thomas' orchestra. They run by hand and can be depended upon not to quit in the race. Burmeister & Andresen THE JEWELERS.
