

OREGON COURIER

A. W. CHENEY. CITY OFFICIAL PAPER.

Entered in the Oregon City postoffice as second class matter.

SUBSCRIPTION RATES. One year, \$2.00; six months, \$1.00; three months, \$0.50.

PATRONIZE HOME INDUSTRY. OREGON CITY, AUGUST 2, 1895.

SAUCE FOR THE GOOSE. The republican paper resisted the improvement in business as long as they were able.

Senator Mitchell, in his address before the editorial association at Newport, urged the press of Oregon to pull together with the common object in view of securing the construction of the Nicaragua canal.

Mr. Van Dusen, writing to the Nebraska paper from Salem finds fault with the country on novel grounds. He says: "Another drawback—people die too easily here."

According to reports from London, New York, Yakima, Wash., and Sacramento, Cal., the hop crop will be considerably short this year.

The Portland Sun has ceased to shine. The stockholders decided to suspend publication on August 1st; cause lack of silver and gold.

Acute observers know very well that we were near a panic in February last, and that the action of the administration averted it.

The convicts in the state penitentiary at Salem have been "leased" to Julius Loewenberg of Portland for 35 cents per day for a term of 10 years.

It is supposed by some that the low prices prevailing in the United States last year were due to local causes, such as bad politics, of which we had a superfluity, as few are disposed to deny.

Against Silver. Dr. W. E. Carll, of Oregon City, member of the democratic state central committee for Clackamas county, sends the following letter to Secretary Napoleon Davis of the committee, relative to a silver convention:

"Napoleon Davis, Secretary Democratic State Central Committee—Dear Sir: In answer to your question, 'Do you favor a meeting of our state central committee?' if so, when? I do favor such a meeting, the sooner the better."

"The sentiment here is, I think, not much different from most counties. The populists, or flat-money party, are of the same opinion, still, although the approach of good times and better prices shakes their faith a little."

"The significance of these facts cannot be overestimated. The authority on which they are stated is the highest, and it is so recognized by the United States treasury department, which indorses it in a recent bulletin."

The Sauerbeck tables show a steady decline in London prices, culminating last year in the unprecedentedly low price of nearly every article which the people of England buy from America and other countries."

NO CONVENTION. No good reason whatever can be advanced, says the Willamette, for calling a democratic state convention this month or this fall, to discuss the silver question, or for any other purpose.

When Baby was sick, we gave her Castoria. When she was a Child, she clung to Castoria. When she became a Woman, she still clung to Castoria. When she had Children, she gave them Castoria.

GENERAL Master Workman Sovereign has appealed to the people to "boycott" all national bank notes, refusing to receive them after Sept. 1, 1895.

It would be an interesting calculation to show how much the printing presses turn out in a course of a year, but the fact that, if a single person were to sit down and read all the newspapers that are published in this country in the course of a twelvemonth, reading 12 hours daily, he would be nearly 3000 years old before he concluded the task.

Senator Mitchell, in his address before the editorial association at Newport, urged the press of Oregon to pull together with the common object in view of securing the construction of the Nicaragua canal.

Mr. Van Dusen, writing to the Nebraska paper from Salem finds fault with the country on novel grounds. He says: "Another drawback—people die too easily here."

Teachers' Association. The Teachers' Association of Clackamas county met at Harmony on July 27th, and was called to order by Supp. H. S. Gibson, with Miss Fannie G. Porter as secretary.

The semi-annual election of officers was held with the following results: President, S. W. Holmes; Vice-President, F. M. Holmes; Secretary, Fannie G. Porter; Treasurer, Hattie Monroe; Editor, Bertha M. Gibson.

At 1 p. m. the teachers adjourned to the adjoining room where a most delicious dinner awaited them.

The afternoon session began at 2 p. m. First was the roll call with response of quotations from Shakespeare. Mr. Herbert Beattie had prepared an interesting biographical sketch of the world's greatest dramatist.

The choir then sang "America." Miss Ida Starkweather recited "Over the Hills to the Poor House" in an affecting manner. Miss Elvira Mullin played a violin solo which was much appreciated.

Methods of Teaching Geography had been assigned to Geo. McArthur who was not present. F. M. Darling continued to talk on the subject and outlined his plan of teaching this important branch of study.

Mr. S. W. Holmes and Miss Fannie G. Porter recited "Our Home" in a spirited manner. Miss Nellie Younger and Hattie Monroe sang "O Restless Sea" with great expression.

At 10 p. m. the teachers adjourned to the adjoining room where a most delicious dinner awaited them.

FARM-FIELD AND GARDEN. LEGUMINOUS PLANTS. For Green Manuring and For Feeding. Results Gained at Different Stations.

Green manuring improves the physical properties of the soil by making the soil more porous and adding to its supply of humus. It brings up the dormant plant food from deep down in the soil and deposits it near the surface.
