THE PAWNSHOP AGAIN

What Durrant's Attorneys him of crime." Will Try to Prove.

Oppenheim's Store and Dr. Cheney' Medical Lecture Will Again Figure in the Trial.

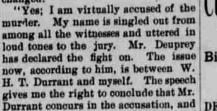

San Francisco, Oct. 2.-Since the adjournment of the Durrant trial Friday, the prisoner's attorneys have visited the Cooper medical college several times, and have had frequent interviews with students whom they will put on the stand in hopes of bracing up the alibi which the defense hopes to es-Lablish.

It is thought that several of the college boys will testify to having seen the accused between 1 and 2 o'clock the afternoon of April 3, but if any will give evidence of the fact that Durrant was in the college until 3:30 in the afternoon he is not known. Attorneys for the defense are building much on what E. A. Diggins will testify to. Diggins is a member of the sophomore class, but frequently attended the senior class lectures. There he met the defendant. The latter claims that he spoke to Diggins during Cheney's lecture, the afternoon that Blanche Lamont disappeared, but Diggin's memory is rather hazy just at present.

Gilbert F. Graham has been summoned as a witness both by the prosecution and the defense. For the prosecution he will swear that Durrant, several days after his arrest, asked for his note book, which he wished to say he saw Durrant at the college on April 8 about 8 o'clock. Durrant insists now it was Graham who offered to loan his notes instead of being asked to give them. Graham denies this and declares it is absolutely without proof.

R. H. Carter, one of the students at of the strongest witnesses for the defense. He corroborates the story which Durrant tells of his movements between 1 and 2 o'clock on the afternoon of April 8. Carter has been subpenaed to testify for the defense. In speaking of his knowledge of Durrant's move-ments on April 3, he said: "I believe I saw Durrant and F. R. Ross together on Webster street about 1 o'clock Wednesday, April 8."

Carter will make one of the strongest tively as to the date he met Durrant, impossible to find such a student. against you?" "Not at all. His accusation is in harmony with all the actions of the defense from the beginning. You surely think I am very simple if you suppose I have been in ignorance of the work going on in the 'underground railway.''

"Do you think the defense will spirng some surprises on you?"

"That is a good question, but I don't care to answer it in public. I think I can smell a rat as well as any person. I hope the rat, for his own sake, will choose the right moment to come out of the hole. When he appears the cat will not have a bell on its neck."

"Your handwriting is going to figure in this case?"

"So Mr. Deuprey says. He knows what he is talking about. He is just as sure of my handwriting as he was of Dr. Cheney's testimony." "What is your opinion about the handling of the case?"

"In these days, when analogy does duty for logic, it is positively refresh-ing to know that at least two lawyers think the people do not see any difference between a bluff and a fact."

"Don't you think they are working faithfully?"

"Yes; they are piling up exceptions, which are crushing the righteousness out of their case. Every technicality is a curse thrown in the face of a the friend they profess to defend. No witkeep several days to compare with his ness has done so much against W. H. own. For the defense Graham will T. Durrant as the actions of his attorneys. I would rather be hanged than be defended by such means as Deuprey and Dickinson are employing."

"What do you think of Durrant?"

"Whatever people's opinions are there are few who do not think that he deserves a wealth of sympathy, because the Cooper medical college, may be one he is unfortunate enough in the hour of trouble to have as his best friends two men whose fame outshines their wis-

dom. What the prosecution believes to be testimony of the most vital importance in the Drorant case has at last been obtained from a student at Cooper college.

For months the porsecution and defense have labored to find someone witnesses the defense will put on the tion regarding the lecture which Dr. stand. No one could tell anything that hopes that Carter will be able to swear might indicate that he was not there.

FIRM CULBERSON IS

Big Fight Will Not Take Place If He Can Stop It.

DEPENDS UPON THE LEGISLATURE

He Has Not Receded From His Purpose to En orce the Law Regardless of Judge Hurt's Opinion.

Austin, Tex., Oct. 1 .- The following from there is direct from the governor's office, and is self-explanatory: Governor Culberson stands firm in his position against prizefighting. He intends to suppress it and will exert every power of his office to that end. He believes the law, as it now stands, is against prizefighting, and that the decision of Judge Hurt is fundamentally wrong. His proclamation issued Friday does not recede one inch from his his declared purpose to enforce the law, regardless of the Hurt opinion. He simply begins with the mild pacific measures, before force is used. The legislature will convene October 1, and the case against Controller Finley, it is expected, will be set for hearing in the supreme court, October 10. Should the decision of the supreme court be against the state, there will remain the

aw against disturbances of the peace. Ex-Governor O. M. Roberts has written Governor Culberson, commending his action in convening the legislature. There are grave doubts, however, about the legislature passing the law with the requisite two-thirds vote to give it immediate effect. Inquiries sent to members, so far as heard from, indicate that a law to take immediate effect making prizefighting a felony, will go through by an overwhelming majority. It is thought, however, by those favoring the fight, that Governor Culberson should have called the legislature after Judge Hurt's decision and before the fight, as the club has already spent thousands of dollars. He waited, however, three weeks, and to prevent it now will cause serious loss to innocent parties and be an act of injustice. Several members of the legislature are known to entertain this view, and it

may be they can muster enough force He Wept Because He Was Sorry to to prevent a two-thirds majority. Eleven senators can defeat the emergency clause, and it is well known the senate and governor were not on good terms at the adjournment of the legislature last winter.

Chicago, Oct. 1.-The Tribune will tomorrow publish interviews with a number of Texas senators and repreing the passage of the law with an emergency clause to prevent the Corbett-Fitzsimmons fight. They are without exception favorable to the law.

The Times dwells upon China being a huge and inert mass, whose friend-ship is not worthy the cultivating by feeble concessions to her pretensions and her pride, and then adds:

"What we want done, we must insist upon having done, not by futile representations to Peking, but by going to the spot in question and seeing it done ourselves."

COUNTRY'S HISTORY REVIEWED

Intense Hatred for the British Government Shown in the Declaration of Frinciples Adopted.

Chicago, Sept. 28.-At today's ses-sion of the Irish convention, O'Neill Ryan, of St. Louis, chairman of the committee on resolutions, read the following declaration of principles:

"The people of Ireland are a sovereign people. Ireland is by nature separate from every other country, and liberty is the birthright of her people. Ireland was known throughout Europe as a nation long before the dawn of Christianity, and was the home of civ-

ilization when England was still barbarous. We doubt if the Mantchurian dynasty can survive cruelty and brutal vindictiveness have been the distinguishing features of English rule in Ireland. England has destroyed Ireland's desires and ruined her commerce; she has placed upon her statute books laws making it a crime to educate Irish children; she has burned Ireland's schoolhouses and destroyed her churches; she has driven into exile, or left to perish in her dun-

geons, thousands of men whose only crime was to love Ireland. "Every measure of the last century

looking toward the legislative independence of the Irish people has either suffered defeat in the commons or been arbitrarily rejected by the lords. England has violated every treaty, and broken every pledge, and with almost every year of the century she has imposed upon Ireland brutal laws of coer-

cions, and one of the most drastic character is now upon her statute books. "To the pleas of the people for jus-

tice, and their prayers for her mercy, England has responded with the scourge and scaffold, and yet today, Ireland, enthralled, but not enslaved; crushed, but not conquered, is in spirit a nation. It has become evident after many years of earnest endeavor to obtain a measure of independence from England by peaceful agitation, that appeals to reason for justice are futile. It is left, therefore, for men of the Irish race to porclaim again the truth
