"How shall I make my school successful?" By J. W. Gray: "A teacher to be educated not in books alone, but in self-control; must be kind and patient; he must have confidence in himself; he must have originality, and must use judgment. He must be interested in the work of the school before the pupils can be. If a pupil is not taught to reason for himself, the rules he manages to commit to memory, will not be of much use to him."

An adjournment for dinner was there taken. The Oregon City delegation were most hospitably entertained by Mrs. Moody,

AFTERNOON SESSION.

The exercises began with a song by local musicians,"Put Your Shoulders to the Wheel." W. Gilbert Beattle favored the audience with a slightly humorous recitation.

Next in order was the roll call of the as-Response—a quotation from Robert Rurns.

An address on "The Teacher's Aims" by T. J. Cary: "I would say, if God should give me power throughout my life to make noble men and women of what would otherwise be miserable wretches, I shall count my life as noble spirit, and all other works as naught but vantiy. Fellow teachers, our aim should be to so train our pupils that they will regard all work as in the highest degree honorable, and that it is extremely dishonorable and unbecoming for any person, whether rich or poor, to be without some honest occupation. The spirit without the mind is as useless as the mind without the spirit. The ideal teacher is he who in himself embodies every enabling trait of human character, and can so influence his pupils that they will aspire to lead useful, honorable and upright lives. The teachers should dare be all that may be-

come a man."
Miss Anna Schatzman gave a recitation, "Graduation."

It's Use and Abuse, and How to Avoid Errors Common in the use of Syntax" was handled by Supt. H. S. Gibson in an able manner. After an exhaustive review in an able manner. After an exhaustive review of the sounds from which the English language is derived, he said: "Whenever the English language is spoken there is a noticeable difference in the speech of educated and uneducated people. Anyone who speaks any language 'naturally' learns to do so from the people who surround him, while he is growing up. If his associates use correct language he unconscientiously imitates them, thus forming correct habits of speech. By 'good English' we mean such as is used by the best speakers and writers. It is therefore, the usage of educated people, and not any book of rules, that makes the standard of good English. Read the works of the best writer; listen to the best speaker; be careful what you say, and how you say it. If you what you say, and how you say it. If you hear an expression that you think not right, analyze it, think over it, and ascertain if it be

"How can I Best Uphold the Dignity of the Teacher's Profession" by A. C. Strange: "There is progress in all lines. We owe it to the Creator who sent us here on the earth to cultivate the intellect with which he has endowed us. Let us learn to exemplify the culture we have received, thereby upholding the dignity of the teacher's profession. Let us teachers be careful not to carry our ideas to extremes. Let us teach principles that are antagonistic to vice and crime. The one who succeeds best in any calling is the one who has the highest ideal. Great deal depends upon the teacher's personality. The best teacher is the one who can influence most."

KIDNEY.

E. W. JOY COMPANY-Gentlemen: I have suffered from kidney trouble for two or three years. I would have to get up in the night to void my urine from ten to fifteen times. My sleep was disturbed, and I became very thin and nervous. No appetite; bowels constipated. Thave taken two bottles and gained fifteen pounds. Sleep well. Have to get up about three times during night, and am very much better in every respect. Will continue to take your Vegetable Sarsaparilla for I believe it will entirely cure me. (Signed) MR. Monthly Meeting at Motalia on Last Such a Deficiency in Rainfall—Plowing Delayed—Grass Short.

According to the bulletin of the state miday, November 9, and was called to order by the president, H. S. Gibson.

The exercises opened with instrumental one in the history of the country. There was practically no ranniali during the month. The average Ostober rain-lall varies from 5 to 7 inches along the coast; from 2 to 4 inches in the country between the coast and Cascade range, and from ½ to 1½ inches east of the Cascade mountains. The foregoing are the averages; the total amount that fell during the month of October, 1895. was greatest at Astoria, where 0.23 of an inch fell. At Albany 0 10 of an inch fell, and at other places west of the Discovery know its value, and those of the Blue mountains; at rotation sample box of Dr. Kings's there was an excess of temperature while in other portion of the state the while in other portion of the state the Health and Household Instructor, Free. following statement gives the main features of the weather in every section of the state during October, 1895:

The foregoing shows the phenomenal weather conditions which have existed. The marked feature is the absence of rainfall. There have been years when

rainfail. There have been years when as much as 13 inches have fallen in October at Astoria, 11 inches at Portland, 6 inches at Roseburg and 5 inches east of the Cascades. The year 1868 had an autumn similar to that of this year. There is the memory of the oldest inhabitant that relate of a year in the early '40s that had no rainfall in the autumn, but as the records do not cover autumn, but as the records do not cover this early period, no statement can be accurately made concerning it. There are almost continuous records since 1850, and since then it can be safely said there has been no such period of

said there has been no such period of dry weather.

The effect of the dry weather has been to delay plowing and seeding and to make range food for cattle and sheep very poor. The harvest of all crops was practically complete by the 1st of October. The rains in the fore part of September were not sufficient to allow of plowing during October, the result is that by the close of October much less plowing and seeding have been done than ever before. This may possibly affect the acreage of next year's crops. However, as plowing and seeding progresses every month of the year in portions of Oregon the usual acreage may yet be sown. vet be sown.

MOTHERS, Do You Know that Paregorie, most remedies for children are composed of opium or orphine?

Do You Know that opium and morphine are stupefying narcotic palsons !

Do You Know that in most countries druggists are not permitted to sell ascentics without labeling them poisons?

Do You Know that you should not permit any medicine to be given your child unless you or your physician know of what it is composed?

Do You Know that Castoria is a purely vegetable preparation, and that a list of its ingredients is published with every bottle? Do You Know that Cactoria is the prescription of the famous Dr. Samuel Pitcher.

That it has been in use for nearly thirty years, and that more Castoria is now sold than of all other remedies for children combined? Do You Know that the Patent Office Department of the United States, and of

other countries, have issued exclusive right to Dr. Pitcher and his assigns to use the word "Castoria" and its formula, and that to imitate them is a state prison offense?

Do You Know that one of the reasons for granting this government protection was secause Castoria had been proven to be absolutely harmless? Do You Know that 35 average doses of Castoria are furnished for 35

Do You Know that when possessed of this perfect preparation, your children may be kept well, and that you may have unbroken rest?
