There will be prayer meeting at Mrs Griffith's every Tuesday evening to which all are invited.

We notice that while many observe the law in regard to fast driving over bridges, there are some who do not, particularly those on horseback, who do not slack pace but ride as if a bridge were made for a race track. A little regard in this direction, boys, may save trouble, as fast driving is injurious to any bridge, causing unnecessary strain by imparting too great vibration to the structure.

The young ladies who went to Oregon City on Monday missed the last Gladstone car returning, so had to foot it home, where they arrived about 4 o'clock next morning. They will be more careful hereafter.

After 1896 leap year will not come again for eight years, as only every fourth centennial year is leap year.

What's that that is being said about turning over a new leaf? Of course, all of us young ladies feel it our duty to turn something now that it is 1896. Maybe we won't turn over a new leaf, but we will blow up one corner so we can get hold of it and take a peep at the other side. Our curiosity is thoroughly aroused and if we don't get it appeased this year, 1904 may find us that are now 18 or 20—18 or 20 still. Boys are awfully backward and need pointers. We'll give 'em.

Mr. Haas, from Iowa, is looking around here for a ranch. His parents are expected here soon. The thermometer where they are living registers 14° to 16° below zero while here we have not seen it 14° to 16° below the freezing point for sometime. If the prairie country is a regular heaven to live in it must be on a northerly slope. We say, come on over onto our southerly slope, and wear the same flannels all the year around with but few exceptions.

communication of last week when you said your church was handsomely decorated Christmas eve? There is a good deal of difference between a church and a hall. Don't mislead the people for the most foolish thing we know of is your communication. The readers of the Courier want news fresh and new not old and stale as yours was, but we will spare you further as you are a pretty good sort of a fellow. **ANOX.**

**A Pertinent Question.**

OREGON CITY, January 14, 1896.

**EDITOR COURIER:** What under the sun is the reason that our lawmakers can't devise some way whereby our penitentiary with its hundreds of able-bodied men can't become self-supporting instead of being a burden to the taxpayers? The state is entitled to their labor whether in or out of prison.

Large factories with a like number of employes accumulate cash with their yearly dividends.

Why should the taxpayers be taxed nearly \$100,000 for a class of men who are able and should be made to support themselves? **LABORER.**
