OREGON CITY, JAN. 31, 1896.

THE Cripple Creek mining boom is an indirect benefit to us. It is taking a number of idle men from this state to Colorado.

THE English troops captured the kingdom of Ashantee by the device the republicans have heretofore used in this state to capture the voters, fireworks and noise

THE rise in the price of wheat has a stimulating effect on the big ranchmen of California. Unless the rise is much greater, it goes without saying that it will not help the small farmers of Clackamas

man of Cincinnati, is mentioned as an politician. aspirant for the presidency on the demo cratic ticket. He has a good record, and could fearlessly repeat to mudslingers Grover's dictum, 'Tell the truth."

THE announcement of the approaching marriage of ex-president Harrison is another proof of the old saying that a widower generally tries to drown his sorrow over the departed by securing another helpmeet.

THE thousand colored voters of Multnomah county may no longer be satisfied with being snubbed by the bosses, but demand substantial recognition. Some of them are very much awake. This is merely a gentle reminder to Joe Simon et al.

Tus insurgent president of Cuba dees to present us with the "Gem of the antilles," and we can have no valid eason for refusing the proffer. Engand is not going to gobble it by "any manner of means."

THE rapid growth of manufactoring ndustries in Japan is a newand unlookmet soon by congressional action. Fifty- every issue." This London journal is less six cotton mills have been established afflicted by the Anglomaniac bias and in Japan, the product of which is driv- more loyal to America and the feeling ing the English out of the Oriental of American patriotism than the Chammarket.

THE subscriptions to the government loan, more than twice the amount of the bonds offered for sale by the secretary of the treasury, are proof of the fact that there is far more gold in the county than croakers would make us believe, and also of the other fact, which is more important, that patriotism is not dead

THE course of mining engineering which has been established at the state university offers the young men of Oregon a splendid opportunity to fit themselves for a profession which offers many opportunities for rapid advancement, for mining has never attracted more capital and attention than at present.

THE "free trade" tariff is not appreciably injuring the iron industry. A Piladelphia exchange says: "Never was there such activity in iron and congress of the United States, and each steel works as now. Everything is territory and the District of Columbia stained. Projects for greater activity cratic conservative citizens of the are improving in 1896. Several ra ilroad United States, irrespective of party companies placed big orders also."

We may be confident of dates, the meeting-places and the candithis that as soon as business confidence dates of the democratic national conhas been fully restored money will circulate more freely and "hard times" will cease; but not till then.

A sawmill and sash, door and blind establishment of Wisconsin, requiring 20 acres for its plant, desires to remove to a timber belt in the northwest Pacific coast country, the timber in its present location being exhausted. Efforts are being made to locate it in the large maple forest of Klickitat and Yatima counties, Wash., covering an area over 50 sections. Thus gradually reat industries go westward with the

Duning the past 80 years the world's annual gold production has increased 20 folds, while the world's population has increased only 236 fold. Last year the total production was over \$200,000 .-000, and if the present increase in goldmining continues, we shall be deluged by the yellow metal. The consequence will be a fall in the value of has moved his shop to the building gold, or, in other words, a rise in the

tar of empire.

THE increase in price of marketable beeves and mutton sheep together with the wonderful impetus that quartz and placer mining is receiving in Eastern Oregon promises to put that section on the road to renewed prosperity.

THE free-silver majority of the senate finance committee will stubbornly oppose any financial legislation that does not specially favor the white mental, though the president is in the way to thwart any such scheme. We can only hope that money matters will adjust themselves without assistance from congress, as we can hope for none. The populists of the committee fear they would stultify themselves if they assisted the government in relieving it from the incubus of the \$500,000,000 of paper money that is used by the great bankers to rob the treasury.

THE leaders of the republican party in this state have proven themselves faithless to the trust imposed on them, by robbing the tax-payers. Never were taxes higher and never was it more difficult to obtain the money to pay them. The democrats have the opportunity to show their patriotism and regard for th welfare of our state by nominating for the legislature the very best men in their ranks. The republican party, under its present leadership, has lost the confidence of the voters and, unless they have degenerated to party slaves, they will prefer an honest democrat to a M. E. INGALLS, a wealthy railroad thieving republican professional

> Col. E. B. Wise, a prominent business man of Goldendale, Wash., says in a letter to a friend from Stockton, Cal: "I have found nothing in California that will compare with our Eastern Oregon and Washington except climate. The state of California is 'played out.' It is a sea of floating population of tramps, health hunters and vagabonds. In this great San Josquin valley that you hear so much about is nothing. The farmers raise only 10 to 15 bushels of wheat per acre in a good season and the business men are simply paralyzed, or in plain language it is as duli as h-- on all sides." Oregonians should be satisfied to stay where they are.

THE Saturday Review, one of the most influential organs of the conservative sentiment of Great Britain, does not hold the opinion that the British empire can endure the strain of a great war. It says: "We are regarded with indifference by our kinsfolk in upper Canada, and the feeling in Australia is scarcely more sympathetic. The Sydney Ru letin, the most popular journal under the Southern Cross, derides Enged for danger that must be met and land and the English connection in ber of Commerce of New York, which received its charter from George III., or the New York Nation, which derides the hostile feeling in this country toward England as jingoism. It is a consolatian that though the tories have too much to say in Wall street, they do not regulate the patriotism of the rest of the country.

NATIONAL CONVENTIONS.

National Chairman Harrity last Friday issued the official call for the democratic national convention. It reads: "The democratic national committee,

having met in Washington, January 16, 1896, has appointed Tuesday, July 7, 1996, at 12 o'clock noon, and chosen the city of Chicago as the place for holding the democratic national convention Each state is entitled to representation therein equal to double the number of its senators and representatives in the running night and day. Machinery is shall have two delegates. All demopolitical associations and differences, who can unite with us in the effort for pure, economical and constitutional

Electric Bitters.

Electric Bitters is a medicine suited for any season, but perhaps more generally needed in the Spring, when the languid exhausted feeling prevails, when the liver is torpid and singgish and the need of a tonic and alterative is telt. A prompt use of this medicine has often averted long and perhaps fatal bilions fevers. No medicine will act more surely in counteracting and freeing system from the malarial poison. Headache, Indigestion, Constipation, Diz-ziness yield to Electric Bitters. Only 50e and \$1 per bottle at Charman & Co's
