Mrs. Miller's Lecture.—At a meeting of the Historical Society at the First Congregational church, Monday, Mrs. R. A. Miller, of Oregon City, read an interesting paper on "Incidents and Experiences in Lives of Pioneer Women of Oregon." The attendance was good, and the lecture seemed to leave a profound impression that the women of those days played no mean part in the history of this Western country. The subject was practically the same as that of a lecture delivered by Mrs. Miller at the reunion of the Pioneer Society in June last year. It was therefore with reluctance that Mrs. Miller volunteered to handle the subject the second time, but the historical society had a wish to hear it again, and finally prevailed upon Mrs. Miller to consent.—Oregonian.

You would not knowingly swallow poison. When you drink poor whiskey you poison blood, body and brains. Besides this you don't enjoy the drink. Buy good whiskey. There's comfort, health and enjoyment in it. If overworked, worried or run down, you need a warming soothing tonic. Nothing like good whiskey. It aids digestion, makes flesh and pleasantly invigorates the system. Good whiskey does this mind you. Poor whiskey irritates the stomach, inflames the tissues and poisons the blood. You can't afford to run risks; get the best, it pays. Physicians drink and recommend I. W. HARPER'S Nelson County Ky. Whiskey. Sold by Hill & Cole, Oregon City, Ore.
