

# OREGON COURIER.

VOL. XIII.

OREGON CITY, OREGON, FRIDAY, MAY 1, 1896.

NO. 52.

### About Carpets...

Yes, that's the subject to talk about now, for the two-fold reason that it's Spring, and we are offering opportunities for carpet buying which are the wonder of the hour. There's nothing remarkable in low prices for goods which no one wants, or in high class carpetings being sold at figures which only the rich can touch. Our figures for new, handsome, and attractive patterns in carpets, rugs, matting, oilcloths, linoleums, etc., make buying easily possible for all. No job lots of have-beens here: Carpets, 15c a yard and upwards. Matting 10c a yard and upwards.

## Build Up Your Brain...

Steady your nerves, and perfect your digestion by using bread made from our whole wheat flour. It is made from the whole wheat berry, except the outside hull or bran, which is a woody substance, irritating and indigestible. Bread made from this flour is not so white as that made from the pale white roller flour, but is far superior for food as it contains all the gluten, germ, and oily matter of the wheat and is much sweeter than graham or any other bread not sweetened artificially.

ONCE TRIED—ALWAYS USED.

E. E. WILLIAMS, The Grocer.

### CORRESPONDENCE.

#### REDLAND.

Your Redland correspondent has waked up again and will tell you what our people are doing.

Mr. Comens of Tremont was visiting friends at Linn's mill Saturday and Sunday.

Some of the boys in Stringtown were visiting in Redland Sunday.

Mr. Ed. Bailey made a flying trip to town Saturday.

G. E. Spees went up to Mr. Wolf's to work.

J. W. Linn was visiting C. A. Sprague Sunday.

The Redland and Beaver Creek brass band is progressing nicely under the management of Prof. Landie.

You can hear the hum of Linn's mill every day now.

W. Sprague went to Oregon City one day last week.

Mr. Hanes gave a dance Friday night and we hear that those present had a fine time. We also hear the music was

furnished by the "violins."

School in district No. 21 is progressing nicely.

F. R. French of Dover, Or., was visiting his son-in-law, F. F. Selman, Sunday and Monday.

The roads has no bottom in our little burg yet.

Miss Milda Linn was in Oregon City Monday.

Ed. Bailey was in Beaver Creek Saturday night.

The Redland and Beaver Creek brass band will give a dance at Linn's mill Saturday evening May 30, with a basket supper; tickets 25 cents. The band will furnish the music for the round dances and a very good time is anticipated by everyone. All are cordially invited.

April 28th. ENGINEER.

#### MOLALLA.

Owing the continued rains farmers in this locality many have been delayed in finishing their seeding and gardening.

Notwithstanding the bad weather there is some one almost daily passing through here en-route to the Ogle Creek mines. Last week James Thorne, Doctor Goucher and others went to Ogle Creek. They had to abandon their horses some eight or nine miles before they reached the mines, on account of the snow. It will be some time before the Red Rock trail will be clear from snow so that horses can travel the entire distance. The most of the travel now to Ogle Creek goes by way of the river route as there is no snow that way but the Molalla at this season of the year is a dangerous stream to ford unless one is well acquainted with the crossings. What little prospecting has been done so far this spring at Ogle Creek is very flattering. That country will probably be developed this season.

People here generally deplore the cutting inflicted upon the person of Lon McLane by Eli Deck and much sympathy is extended the family.

The Molalla orchestra is practicing regular. They will furnish music for the drama, "Above the Clouds," that will be given by home talent to the people of Molalla and vicinity in the near future. The proceeds of said entertainment is to go, I believe, to aid in procuring chairs to seat the hall or upper story of our new school building.

Our new school house has been commenced. Uncle Jake Harless has been engaged (between showers) hauling

stones for the foundation. Notwithstanding hard times there will be several new buildings erected at and near Molalla this summer in the way of barns and houses. There is still a probability that we will have a roller mill here this year. Mr. Rodgers (the miller) and family have located here with us and he is trying to make the enterprise a success.

Our school will close on May 5th. Work on the new school house will be commenced as soon as possible after school closes.

Prof. Charles Cutting was through here recently on his road to some mine located on a tributary of the Molalla. The professor had plenty of provision and was well fixed generally, in fact, has started to the mountains for a season's run.

It is reported that a certain young man who went to Eastern Oregon from here recently has failed to locate the garden of Eden out there and wants to get back to Molalla again. Of such is bunchgrass to one that has been raised in Clackamas county.

We had a new doctor locate with us recently but he disappeared a few days ago.

Jacob Harless is thinking of rigging his chop mill again in place of the one that flew to pieces for him a short time ago.

April 28. X Y Z.

#### STAFFORD.

Talk about your Easter weather being a forecast for six Sundays to come! Why, friends, you are not in it at all with your old threadbare prognostications; in fact, you don't know any more about the weather than many others. Like the rest of humanity you have to take it as it comes—rain or shine. Don't you remember the old saying, "never cross a bridge until you come to it?"

Say there! how is your clover crop looking? Hereabouts it never looked better at this time of the year.

Zack Elligson has some very nice young pigs pasturing in the school yard. Not every rancher has the control of their hogs enough to jump them over a six-board fence to feed upon scraps thrown out by the scholars as they eat their midday lunch.

Our local blacksmith, Mr. Schultz, is not having much of a rush of work at present.

Henry Schatz is splitting shakes to cover a chicken house, 20x12, he intends building in the near future.

Joseph Miller was seen on one of our thoroughfares a few hours since, enroute to Tualatin—presumably to see the boys. ???

No more hair on John Gage's upper lip since his youngest sister, Miss Ollie, jumped the broom-stick. John says he cannot wear a mustache and dance in the hog-trough too.

A. M. Holton and his bride, Ollie, formerly Miss Gage, departed on Friday last for Northern Washington where they will make their home. Mrs. Holton was born and brought up in this neighborhood, and, so we have been told, has but once been out of the state heretofore; a typical American girl always jolly and full of fun, and well liked among her many associates.

We are pleased to state that those that were reported on the sick list a couple of weeks ago are convalescent, and no more to add to the list. Generally speaking, Stafford is a very healthy place and owing to its close proximity to the Willamette falls should be classed as one of the "summer resorts" of the north west. Stafford is located 6 miles west of the county court house and at the base of the Tualatin mountain, also 6 miles from Oswego, 6 miles from New Era, 6 miles from Wilsonville and 6 miles from Durham's mill.

April 24. LENOTHY.

#### RURAL DELL.

The weather is still wet in our country. The farmers cannot plow now on account of rain, not because they need rain.

A. Soule and son have been making rails and burning logs for a while. Things look different around where they stay now.

I. J. Bigelow was down to Portland last week.

John Ring has been buying an apple and potato house.

The people of Rural Dell expect to hear T. B. Hankins and D. F. May next Saturday evening.

George Ogle has been doctoring for catarrh of the head.

Rev. Davis has one more appointment to fill before conference at Rural Dell, which will be on the third Sunday in May.

Rev. Blair of the Free Methodist

church is sent back on this field of labor this year. His next appointment is the first Sunday in May.

Chas. Biglow will probably be home in a few weeks to stay for some time until he gains his health.

Alfred Kuensi is making a rail fence. His brother Herman has been helping him for a while.

The fellow that got his foot in a pillow case hasn't been very well since. April 27th. DEW DICK.

#### CANEMAH.

Elmo Dangoit fell from a bridge Saturday night. He was bruised a little but not dangerous.

Mrs. Rakel was taken sick Monday but she is improving now.

The mumps are about to leave Canemah as there are but one or two cases at present. It is a question where they will emigrate.

The young men who started to fish some three weeks ago report bad luck because the water was too high.

Mr. Moore and family of Parkplace have moved into the Ross dwelling. April 29th. HANS WOURST.

#### REAL ESTATE TRANSFERS.

**SIMMONS LIVER REGULATOR**

THE BEST SPRING MEDICINE

is SIMMONS LIVER REGULATOR—don't forget to take it. The Liver gets sluggish during the Winter, just like all nature, and the system becomes choked up by the accumulated waste, which brings on Malaria, Fever and Ague and Rheumatism. You want to wake up your Liver now, but be sure you take SIMMONS LIVER REGULATOR to do it. It also regulates the Liver—keeps it properly at work, when your system will be free from poison and the whole body invigorated.

You get THE BEST BLOOD when your system is in A1 condition, and that will only be when the Liver is kept active. Try a Liver Remedy once and note the difference. But take only SIMMONS LIVER REGULATOR—it is SIMMONS LIVER REGULATOR which makes the difference. Take it in powder or in liquid already prepared, or make a tea of the powder; but take SIMMONS LIVER REGULATOR. You'll find the RED Z on every package. Look for it.
