Build Up Your Brain...

Steady your nerves, and perfect your digestion by using bread made from our whole wheat flour. It is made from the whole wheat berry, except the outside hull or bran, which is a woody substance, irritating and indigestible. Bread made from this flour is not so white as that made from the pale white roller flour, but is far superior for food as it contains all the gluten, germ, and oily matter of the wheat and is much sweeter than graham or any other bread not sweetened artificially.

Some one stole the flag rope from the lower Logan school recently. Fishermen are suspected. Anyone who would do that would rob his grandmother.

Why not try the "X-rays" on some of the candidates and thus tell before hand which way the thing will go, see. May 5th. "Mix."

The M. E. quarterly meeting was held in their church here last Sunday.

We are reliably informed that the new church here is bleeding the different political candidates for money to finish their church with. It looks to us as if this was very small business for them to be at.

STAFFORD.

Notwithstanding the inclemency of the weather most farmers are improving the time by repairing their fences, grubbing, shipping potatoes, cutting wood and otherwise preparing for the pleasant days to come.

The public cemetery has been grubbed, the brush and trees being laid to the ground. As soon as fires will burn, all will be cleared away and part of it plowed. There is more good land left in the yard than any one supposed.

We notice that someone has been giving our road supervisor some very heavy rubs through the columns of the Enterprise. Well maybe the roads have not been worked just as they should be but the supervisor is not altogether to blame. Our road boss realizes that he must obey the orders of our county court or receive the same kind of papers as the supervisor in district No. 2 received a couple of weeks ago, notably, "you wont obey us and don't belong to our party, so you can't work for us any more."

Road boss Baker is trying, and always has tried to do right. For years a staunch democrat, then for a season populist, and now, since receiving his commission as supervisor for the second term, a rabid republican.

Some cherries are now about a quarter of an inch in diameter. Apple trees are slowly pushing out their blossoms. We are all going to have a good yield of fruit even though it does rain.

Mrs. Devareux and Mrs. McCormac of Portland have been spending the past week at Weissenborn's.

John Schiewe was in the county seat Friday and reports the roads in a very bad condition.

Biehle, Larson, Polifka, Gage, Weddle, Myer and Weissenborn are each an all turning the stumps out of the ground and preparing for another crop of murphies.

Mr. Holtus sold several hogs and small pigs to Bethke recently for about \$45. There were 53 head in all, which means about 85 cents each, great and small.

Considerable hay is changing hands at present. Hardly a day passes but some one goes by with a load.

Fred Moser has been hauling lumber from Saun's mill with a four-horse team. Well Fred, it is high time you began to haul lumber, if you don't get there this year you wont next.

May 3rd. LONGHY.

THE BEST SPRING MEDICINE

is SIMMONS' LIVER REGULATOR—don't forget to take it. The Liver gets sluggish during the Winter, just like all nature, and the system becomes choked up by the accumulated waste, which brings on Malaria, Fever and Ague and Rheumatism. You want to wake up your Liver now, but be sure you take SIMMONS' LIVER REGULATOR to do it. It also regulates the Liver—keeps it properly at work, when your system will be free from poison and the whole body invigorated.

You get THE BEST BLOOD when your system is in A1 condition, and that will only be when the Liver is kept active. Try a Liver Remedy once and note the difference. But take only SIMMONS' LIVER REGULATOR which makes the difference. Take it in powder or in liquid already prepared, or make a tea of the powder; but take SIMMONS' LIVER REGULATOR. You'll find the RED Z on every package. Look for it.
