Build Up Your Brain...

Steady your nerves, and perfect your digestion by using bread made from our whole wheat flour. It is made from the whole wheat berry, except the outside hull or bran, which is a woody substance, irritating and indigestible. Bread made from this flour is not so white as that made from the pale white roller flour, but is far superior for food as it contains all the gluten, germ, and oily matter of the wheat and is much sweeter than graham or any other bread not sweetened artificially.

MAY 10. LENTHUY.

CANEMAH.

Canemah is so near Oregon City that your correspondent can not mention the state of the weather. But there might be a slight variation and so to set the matter right, I will say that it has been raining up to the time of writing, when it looks as if it will adjourn.

Mr. Lowry, the janitor of the Canemah school, had the misfortune to fall last Tuesday night. He was on the table looking for something on the top of the cupboard, when he fell and struck his side on the edge of a box. He is confined to his bed, perhaps on account of his age. We hope he will soon recover.

The Southern Pacific must be fond of cutting beefsteak lately, for another cow was killed last Wednesday, which belonged to Mr. Criteser. As it occurred on the outside of Canemah and also on the outside of the fence; the company will have to pay for it.

Maxwell Telford, formerly of this place, came down from Ashland Sunday morning. He has been working in the Ashland woolen mills for the past six months, and will remain here for a short time.

Mr. Rinzier was visited by some robbers late Wednesday night. They were trying to break in the door, when Mr. Rinzier got up and shot through the window, whereupon the visitors left with haste.

Populists pass here almost every day, as you can tell them by the large steps they take.

FOR BATTLE SHIP OREGON.

Movement to Provide a Silver Service That Shall Reflect Credit on Our State.

The new battle-ship Oregon, the greatest of the new American navy and one of the most powerful war ships afloat, is now receiving her finishing touches in California. It is customary for the namesakes of Uncle Sam's vessel to give some testimonial to the ship in recognition of the honor and as an offering of good will and special interest. This testimonial usually takes the form of silver service for the ship. It is desired that the state of Oregon shall not be behind in the display of patriotism and state pride and that this most powerful engine of war bearing the name of our commonwealth shall be suitably remembered. To this end money is now being raised to pay for a silver service to present to the battle-ship Oregon when she comes to Portland next July.

Five thousand dollars is the sum which the silver service will cost, and this much less than any similar testimonial has ever cost. Of course, Portland people will provide the greater share of this money. The other parts of the state, however, are justly expected to aid in the enterprise and to Oregon the general committee looks for \$200 of the \$5000. This seems a very reasonable amount to be raised here and the undersigned committee has undertaken to provide it. The sum is expected to be made up of a great number of small contributions from all sources.

The committee does not take up this work simply with the idea of helping to provide a handsome present for somebody. Projects of such nature are not popular these times. It is the patriotic aspect of the move that commands our attention and efforts. The Oregon is a match for any marine warrior of the world. Her career will be worth watching. Every person who contributes to the fund for the proposed testimonial, be the sum great or small, will feel a special and personal interest in the great ship and her achievements. No sordid considerations of profit and loss will go with her for she is not a trader of a merchantman; but the national honor and glory, the cause of liberty and humanity, the impulses of a great and enlightened people will go with her everywhere. It would be a difficult matter to provide a more effective way of promoting broad patriotism of the concrete order that will appeal directly to every individual. The children especially will learn lessons and establish an interest in this connection that will make them better citizens and more intelligent observers of the world's affairs.
