There are medicines which change the action of organs and tissues.

When a part does not properly perform its work, they restore it to health.

Such remedies are called "alteratives."

Scott's Emulsion of Cod-liver Oil, with Hypophosphites, is one of these remedies.

This is largely because of certain drugs which naturally exist in the oil, as iodine and bromine.

If you are neither hard sick nor real well; if you feel below your usual standard, these alteratives will change your condition and bring back your health and strength.

SCOTT'S EMULSION has been reduced by the medical profession for twenty years.

Put up in 50 cent and \$1.00 sizes. The small size may be enough to cure your cough or help your body.

THE BEE-HIVE

A WORD ABOUT SHOES

We are doing a great shoe business and there is no reason why we should not, as our goods and prices are right. Good reliable goods were never sold before as cheap in Oregon City as we are retailing them at the present time.

Many customers tell us they never saw them sold in Portland for as little as we are asking. Well, the secret of the matter is here--we buy of the best manufacturers for cash.

You have no bad debts to pay when you buy goods of us.

Ladies we want you to see those fine Dongola Shoes we are selling for \$1.98. We guarantee every pair and most merchants would want three dollars for the same shoe.
