THE TRADE REVIEWS

Business Outlook Not Affected by Speculation.

DEPRESSION IN SALE OF WOOL

General Trade, However, Is Not Improved by the Political Uncertainty -Failures of the Week.

New York, June 15 .- R. G. Dun & Co.'s weekly review of trade says:

Speculative reaction has not in the least changed the business outlook. The flotitious prices made for wheat PACIFIC RY, and cotton meant no good except for individuals, and the change to prices more nearly in accord with actual relations of demand to supply only con-forms to conditions which have been known for months

KNOWN for months.

The government report as to wheat indicated a much smaller yield than anybody really expected, but that has become so much the rule that the report had no real influence, and the principal effect was the serious depression caused by large sales in anticipation of the report, which seemed to be thoroughly known in advance to some speculators. While Atlantic exports speculators. While Atlantic exports for the week were 1,588,158 bushels, flour included, against only 809,589 last year, the comparison is obviously exceptional and significant, while the receipts at western ports of 2,429,345 bushels, against 1,886,230 last year, show persistency of conditions which have governed the movement during

Bradstreet's Report. New York, Jane 15.—Bradstreet's says: There is little or no effort to push business at a period of so much uncertainty as to the precise terms of the financial planks to be adopted by the great political parties in national convention. The general merchandise movement continues as duil and con-servative as heretofore, retailers, with few exceptions, buying only for immediate necessities. Mercantile collections continue slow and unsatisfactory, and there is no gain in the cotton, woolen goods, iron or steel industries. Western speculators are buying wool above a parity with prices offering from the East. There is little likelifrom the East. There is little likeli-hood of higher prices for wool while so much machinery is idle. Nearly all branches of drygoods are somewhat de-pressed. Cotton goods are below a parity with raw material. General trade in Central and Western states remains quiet.

SEEK OTHER FIELDS.

Many Union Fishermen Decide to Leave

Astoria. Astoria, Or., June 15.-It was reported this morning that early in the day the fishermen of the Scandinavian Packing Company had resolved to go out upon the offer made by that company. In the afternoon, after the meeting of the Fishermen's Union, held in Fisher's hall, the same man reported that the Scandinavian men had reconsidered their action and expressed a determination to stand by the ruling of the union. At the meeting of the pnion it was decided that, after the 16th inst., should it transpire that the o unerymen still refuse to pay 5 cents, all those fishermen who could possibly do so should leave town and seek other employment. About thirty of the men left on the San Francisco steamer yesterday morning, and about as many more left for Portland on the steamer last evening. The following resolution was unanimously passed at the Columbia River Fishermen's Protective Union meeting in the afternoon:

"Resolved, That we, the members of the Columbia River Fishermen's Protective Union, pledge ourselves to deliver to our respective canneries all the salmon we catch at 5 cents per pound; provided, however, that said canneries are to pay two thirds when delivered (if desired), the balance to be deducted uniti the debts are paid, and, if not best essay on fruit culture in his dispaid at the end of the season at the trict, comprising the counties of Multrate mentioned, the nets of members nomah, Washington, Yambill, Clackastill owing shall be stored at such can- mas, Columbia, Clatsop and Tillamook.

Congress.

Washington, June 13.—Vice-President Stevenson brought the session of the senate to a final close at 4 o'clock today, after a brief valedictory expressing his thanks to senators for their courtesies to him through the session. The closing scene was not of a dramatic order, but was marked by placid serenity characteristic of the uppper branch of congress. The galleries were well filled, but there was an absence of the packed corridors incident to an eventful close of congress. The session convened at 12 o'clock, but no business was transacted, beyond the formalities preceding adjournment. The last bill to be passed was one urged by Sherman, pensioning the widow of General William H. Gibson, a prominent Ohio officer. Resolutions of thanks were unanimously adopted to Vice-President Stevenson and President prominent of the senator of the last acts was to give the important irminings in the chair.
