TRUMPET CALL

WOMEN BREAD WINNERS.

Women are steadily, even though not yet by any means, but
unquestionably on the way to a higher status in our culture.
Women have always been known as the house of the woma
n and in that role their importance is obvious. Women are
now making a move into the arena of business, and in increas
ing numbers are becoming successful in that field.

A woman's place in life is in her house. Women are not
only the bread winners in many homes, but their work in the
field of business is of great value to the country.

In the history of women, the breadwinner is a new concept.
