Build Up Your Brain.

Steady your nerves, and perfect your digestion by using bread made from our whole wheat flour. It is made from the whole wheat berry except the out side hull, or bran, which is a woody substance, irritating and indigestible. Bread made from this flour is not so white as that made from the pale white roller flour, but it is far superior for food as it contains all the gluten, germ, and oily matter of the wheat and is much sweeter than graham or any other bread not sweetened artificially.

CORRESPONDENCE.

STAFFORD.

The weather has been torrid here as elsewhere for the past weeks, so much so, that your correspondent's ink dried up.

We have had three sad funerals recently. Two years ago Henry Schutts married Lena Wolf, whose parents live in this community. He was an honest, honorable upright young man and had made a home for his bride at Cleone, where they lived happily and content. Three weeks ago in falling a tree he got one leg crushed. After lingering in extreme agony for ten days and having the leg amputated, death came to the poor fellow's release, and the sorrowing friends brought his remains here for burial, and moved the stricken wife and infant child home to her father's house. A curious fatality seems to have attended his family, as his brother was killed by a falling tree a few years ago near the same place.

COLTON.

Plenty of sun and dust but no rain as yet.

George Bonney of Wasco county, who has been here visiting friends for the last week or so, returned home Wednesday, the 8th, accompanied by his 12 year old brother, Dick, and his father-in-law and family.

Joshua Gorbett and wife were in Oregon City Wednesday and Thursday.

Pres. Burt, George, Fannie and Dick Bonney took dinner with Miss Grace Gorbett Wednesday.

Andrew and Chester Gorbett spent their Fourth at Grass Lake and the Big

Fred Schatty and wife lost their baby a few months old, who died quite suddenly, that is, they had not considered it serious ill until a few hours before its death which was due to teething and the hot weather. These two were buried near together by one ceremony. On the 7th Charley Schreuder was buried here after a short illness. He leave a mother and a number of brothers and sisters, and a wide circle of friends and acquaintances to mourn his death. With these exceptions the health of this community is very good.

The contractors have the lumber on hand to commence the new school house. There has been numerous applications for the school, but I hear the directors are still undecided.

J. Q. Gage has gone to Nestucca to put up hay for some stock he has over there. Everything is growing fine where it is cultivated thoroughly notwithstanding the dry weather. Hay is being rapidly secured.

About 20 boys burnt their backs swimming in the Tuatatan at the dam Sunday, and some of them are feeling pretty bad from having accidentally interviewed a yellow jacket's nest.

Rev. J. Gronde has resigned his pastorate of the German Baptist church and expects to return to Texas. They wish to sell off their household goods at private sale and offer them quite reasonable. Mr. and Mrs. Gronde are very pleasant people and will be missed in the community, where they have labored faithfully for the past two years.

Mr. S. Hepper, who taught our school for a couple of terms, has gone with his wife and baby to visit relatives in Astoria.

The air is getting smoky. People should be very watchful where they set fires while everything is so dry.

HIGHLAND.

Highland is still on top. The wave of prosperity that the republicans promised struck Highland hard the other day. Result, two more mortgages foreclosures, viz: Amos Homer and John Griffin.

Joseph Fellows is very sick with inflammation of the bowels. A case of typhoid fever was discovered in the Shope family. The mumps are still raging in and around this vicinity. Miss Souri Maxwell is the last victim. Mrs. G. R. Miller has just recovered.

Everybody is sighing for rain and putting forth their best efforts to put in their hay.

Fruit is a failure this year and most of the Highlanders will go to the mountains berrying.

Born to the wife of G. R. Miller, a fine boy. Mother and child both well.

The Highland Grange meets their first Saturday in August and will hold an open meeting in the afternoon. A good time and program anticipated. We invite all strangers to come and get acquainted with grangers. C. Larkin, master; G. R. Miller, secretary.

District school closed last Friday, D. A. Miller teacher.

The Y. P. S. C. E. of Smyrna church met on Monday evening of last week and elected officers to serve for six months.

The late sown grain needs rain very badly. The fruit crop is a failure and between the late cold spring, the dry summer and the gold bugs we are having hades of a time.

Oxygen

Wood won't burn unless air—oxygen—is present. The food taken into the body must be united with oxygen before it can be consumed and give heat to keep the body warm. **Scott's Emulsion** of Cod-liver Oil, with Hypophosphites, is one of the best fuel-foods. The cod-liver oil obtains its oxygen from the air and heat is produced. It warms, nourishes, invigorates, gives good blood, and fortifies against the piercing winds of fall and winter. The hypophosphites tone up the nervous system and improve digestion. **Scott's Emulsion prevents** colds, coughs, consumption and general debility.

SCOTT'S EMULSION has been ordered by the medical profession for twenty years. (Ask your doctor.) This is because it is always palatable—always uniform—always contains the purest Norwegian Cod-liver Oil and Hypophosphites.

Put up in 32 cent and \$1.00 sizes. The small size may be enough to cure your cough or help your baby.
