The Republican county convention of Chehalis county will be held in Montesano September 30.

RIOT AT LEADVILLE.

Threstened Assault of Striking Miners Has Begun.

Leadville, Sept. 22.-At 1 o'clock this morning, three heavy explosions aroused the sleepers in the eastern part of the city for blocks around the Coronado mine, which is the one that first resumed operations, and which was heavily bar loaded, and well stocked with provisions and arms.

The explosions were followed by a fusilade of rifle shots, apparently from within the barricade, and rapid but irregular shots from the outside, apparently from a widely scattered attacking force, who were on hand to protect the retreat of the dynamiters.

and all was silent for about five minutes, when desultory firing was renewed and kept up until daybreak.

Ten minutes after the first explosion, a telephone message from the Coronado stated that nobody inside the barricade had been injured.

The telegraph office is watched by several bands of men grouped in dark corners and alleys, and this may mean they propose to prevent any comumnications. The city is in a panic of fear. County and city officials are out looking after the work of the police and sheriffs. Bullets frequently whistle over the office from which this message is being sent.

At 2 o'clock a fire has broken out and is believed to be the oil tanks inside the barricade at the Coronado shafthouse. A telephone message just received from the mine says that nobe of the defenders have been hurt as yet.

2:10 A. M.—The sights and sounds beggar description. All the whistles in the city are blowing, and two or three steam sirens add discord to the dark night's alarming chorus. The sharp cracks of rifles punctuate the tooting at irregular intervals.

Citizens have gone to the scene with whatever arms they can gather, and a militia company has just marched toward the Coronado under arms.

The whistle which calls out all citizens in case of emergency has just sounded, and the streets are full of rushing men, crying women and children.

2:15 A. M. -Another heavy explosion has just occurred. Five minutes ago, the Coronado telephone bore the message that the defenders were too busy to answer questions.

As soon as the fire broke out, the fire department went to the scene and the flames seem to be dying out, indicating effective work by the firemen.

It is said that a fireman named O'Keefe, when he started to turn on water at the fire, was shot. Shots are still heard at infrequent intervals.

TRUNK FULL OF DYNAMITE.

A Startling Discovery Made in a Chicago Lodging-House.

Chicago, Sept. 22. - Joseph Bestman said by the police to be an anarchist, left at 18 Sedgwick court three years ago this fall, a trunk containing sufficient dynamite to have destroyed an acre of property in Chicago, and to have killed hundreds of people. The discovery was made by accident. Bestman was not found, but the police received information in the afternoon that he is living in Dallas, Tex., and wired the chief of police there to arrest him at once. The discovery of this enormous quantity of explosive material and the story of Bestman himself, so far as now known to the police. brings to light a tale of anachistic plottings such as Chicago has not revealed since the dark days of 1885, when the existence of the city was threatened, and Spies and his comrades were swung on the gallows for the bombthrowing at the Haymarket massacre. Much correspondence with the condemned anarchists was also found.

San Francisco, Sep. 28.—Oliver Winthrop, the chief conspirator in the abduction and robbery of James Campbell, the Hawaiian millionaire, was this monring sentenced to life imprisonment for his crime. Cambpell was one day last month inveigled into a cottage at the west end of California street where he was robbed of all the money he had on his person and kept for two days, the robbers, of whom Winthrop was the leader, making repeated attempts to force the aged millionaire to pay a ransom of \$20,000 to secure his release. This Campbell refused to do, and the conspirators finally released their victim for fear of being detected in their crime. Winthrop was subsequently arrested, at the insti-The shooting lasted for ten minutes, gation of Campbell, and was tried with the above result.

Would Set Up a Republic. New York, Sept. 23.-It is whispered around the city that an influential and farramifying conspiracy exists to overthrow the dynasty of China and establish a republic. While the Chinese empire is in no imminent danger, there an organization with headquarters in New York which has for its ultimate object its overthorw, but will content itself for the present with an agitation looking to the betterment of the Chinese people. This organization has its headquarters in New York and a large and influential offshoot in San Francisco, and branches in every city where Chinese abound. Its members are banded by solemn oaths, and no Chinese are admitted who are not intelligent and of good mcraf character.

Ed Crane's Suicide. Rochester, N. Y., Sept 22.-Ed Crane, once a noted pitcher of the New York ball team, committed suicide at the Congress Hall hotel here last night by taking a dose of chloroform. RATE DEMORALIZATION.

Serious Times Ahead for Some of the Western Lines.

Chicago, Sept. 22. - Unless the stockholders of the Western roads soon take action similar to that which resulted in the formation of the Joint Tariff Association among the trunk lines of the East, there are serious times ahead for some of the Western lines. The situation among Western roads has pever been worse in their history than it is today, and it is telling severely on their revenues. Each line is putting in reduced rates to secure business as it offers, and indications are that rates on all commodities of consequence will soon be down to bedrock. The daily bulletins issued by the agent of the roads in Washington show that the nues to the roads, and in the opinion of some of the conservative traffic officials of the Western roads, the only John Mahoney, who works at the Big thing that will remedy the situation is action by the owners and investors in the road and a demand that the presi-

This verdict was not difficult to arrive at, as the marvelous transformation that the big building has undergone has made it a hundred fold more attractive than the bleak, barrack-like structure, lighted by glarish are lamps, that is remembered of former years. The people and the new promenade surprised them exceedingly, but it was an agreeable and happy surprise, and they went away delighted. The three points which the trial was to decide, first, as itself in the air; third, whether, when it commenced to descend, it would easily, were all determined in a manner even as though the bird from which the machine was patterened.

The trial proved the machine perfectacceptable, inasmuch as it has been asserted that the macnine was dangerbe sure to result in death to the operator. Another test will be made soon

Broke the World's Record for a One-Hour Competition, Paced Race.

New York, Sept. 21. - James Michael, the Irish wonder, smashed all the American records for one-hour competition (paced) race this afternoon at the first annual national circuit meeting of the Quill Wheelmen at Manhattan beach. Twenty-seven miles and 1,690 yards stands to the credit of the foreigner for one hour, but Frank Starbuck, of Philadelphia, was only thirty yards behind him at the finish, and only for some bad blundering on the part of his pacemakers shortly after the fifth mile, would have given Michael the race of his life. Starbuck jost a little more than a half mile in the early part of the contest by having no pacemakers, but in the last twenty minutes even at the terrific gait both were traveling, succeeded in not only passing his competitor as they spun around the track, but had nearly caught him at the finish, having gained over a lap and a half. Some of the credit of this wonderful exhibition of endurance and speed was due to Starbuck's pacemakers, who evidently tried to make up for their early blundering, and in a great part succeeded.

THREE FASTEST HEATS.

Remarkable Performance of Star Pointer at Mystic Point.

Medford, Mass., Sept. 21. - Star Pointer, at Mystic Point, this afternoon, not only beat two accredited horses-Robert J. (2:0136) and Frank Agan (2:08%)-but paced the three fastest heats ever made in competition, the time being 2:0236, 2:08 1-8 and 2:0834, an average of 2:0814. He also lowered the world's record for the fastest heat ever paced-2:0234-as well as the records for the fastest quarter and half-2934 and 5934, respecpacers was phenomenal, for, while in ten lengths, in the next two he was close on the leaders, coming in second whole race was never a length behind, and at one time was a nose to the good. Star Pointer, however, managed to go under the wire first in every heat, and must have had something in reserve, for McCarthy never raised his whip in the three times.
