JOHN MYERS .- John Myers, Portland's United States marshal for Oregon by President Cleveland, when he removed to East Portland. After retiring from the marshal's office he was a member of the East Portland city council, and one of the founders of the Commercial & Savings bank, of which he is now president. In politics Mr. Myers has always been an ardent democrat, and in past years his services were in great demand as a campaign speaker.

parture of the 11 o'clock overland Sunday night, Thomas Cowing of Oregon City, who was in the city on a visit to friends, was held up near the Southern agent for Wells, Fargo Co., and just after the departure of the south-bound overland he started for the city. As he was passing the cannery on Twelfth street near the depot, he was confronted by a large, muscular man who commanded him to hand over his money. Fortunately for Mr. Cowing, he only had \$4 with him which he promptly handed the man and then made his way for the town when he notified the police of his unpleasant experience.-Salem Journal.

More Experts .- The county court has employed two experts to look over the books of the treasurer and sheriff from July 1, 1893, to date, in regard to school taxes, the apportionment of which, for the period of time specified, is in a chaotic state. Some districts have received considerably less than the amount due them, Parkplace alone being \$1200 short, and the delinquent tax rolls do not account for the deficiency. It is also alleged that some districts have received money they were not entitled to. The treasurer has on hand about \$600 of school money that is not assignable to my particular

How the contractor is to come out even puzzles the parties whose bids were higher. A surveyor runs the risk of being forced to do job over again, in case his work is rejected by the inspector. In \$8 per mile there cannot be any margin for such emergency.

SCHOOL LEVY RAISED .- At a hearing in Astoria last Thursday, Judge McBride granted an order for a writ of mandamus commanding the county court to increase the tax levy for school purposes in this county from 5 mills on the dollar to 7.07 mills, so as to make the per capita sum equal to that of 1892, which the statute requires. The necessity for making the change on the tax-roll will defer the commencement of tax-collecting a few days.

There are two kinds of sarsaparilla: The best - and the rest. The trouble is they look alike. And when the rest dress like the best who's to tell them apart? Well, "the tree is known by its fruit." That's an old test and a safe one. And the taller the tree the deeper the root. That's another test. What's the root, -the record of these sarsaparillas? The one with the deepest root is Ayer's. The one with the richest fruit; that, too, is Ayer's. Ayer's Sarsaparilla has a record of half a century of cures; a record of many medals and awards culminating in the medal of the Chicago World's Fair, which, admitting Ayer's Sarsaparilla as the best-shut its doors against the rest. That was greater honor than the medal, to be the only Sarseparilla admitted as an exhibit at the World's Fair. If you want to get the best sarsaparilla of your druggist, here's an
