WEEKLY CROP BULLETIN.

PORTLAND, OREGON, May 3.

Weather.—Mild temperatures, with rain Friday night, is, in brief, the work during the past week. Frosts were reported on Tuesday, Wednesday and Sunday mornings. The temperature averaged 53 degrees for the week, the same as in the preceding week. The warmest portion of the day averaged 63 degrees, and the coldest portion of the night 43 degrees; the extremes for the day being from 58 degrees to 74 degrees, and for the night from 34 degrees to 48 degrees. The rainfall Friday night amounted to from .10 to .25 of an inch. There was an excess of sunshine. The winds were generally northerly and light to fresh in force.

Crops.—The weather conditions have been most favorable to crop growth and to farm-work. The frosts have been light. There are a few localities where they are reported as being heavy enough to nip potato vines and strawberries, but these localities are the exception, and not the rule. The fruit-growers are anxious for a heavy frost to thin out the fruit, for the trees are now too full. Injurious frosts after May 1st seldom occur. Apple trees are coming into full bloom. Cherry, prune, plum, peach, almond, and apricot trees have dropped their bloom and the fruit is set. Unless a good frost occurs, a large amount of thinning out by hand will be required; it is seldom, even in prolific Oregon, that the fruit trees are as heavily laden as they are this year. With few exceptions, the correspondents report, "Fruit prospects never so good as at present." Equally as good reports are made concerning the grain crop. The dry, northerly winds have dried out the ground, and more rain would be beneficial. Fall and winter sown wheat and oats have excellent color and fine fine growth. Early-sown spring grain is growing finely. Late plowing and seeding continue; except on the lower lands, seeding will be finished this week. The rain of last Friday night was very beneficial.

Grass has most excellent growth and stock is rapidly fattening. Until the grass had a good start, feed was scarce, owing to so many burning their straw last autumn or stacking it carelessly.

Hops are making very fair growth; training of vines has already commenced. Sheep shearing is in progress, and excellent wool is obtained.

Gardens are making good growth. Wild strawberries are showing color; the season is still somewhat late, but it is rapidly equalling former seasons. Unless unusual and phenomenal weather conditions prevail, the year's crops will be the largest in the history of the state. Corn planting is in progress; many sections report more corn sown than usual. Asparagus, onions, lettuce, radishes, and other spring vegetables are plentiful in local markets.

The weather conditions this morning are favorable for a continuation of fair weather with moderate temperatures, becoming warmer toward the close of the week.

B. S. PAGUE,
Director, Portland.

ABOUT GREECE.

It has a population of 2,187,208. It is called "Hellas" by its people. The mean temperature of Greece is 64 degrees Fahrenheit.

No part of Greece is forty miles from the sea or ten miles from the hills. About one-half of the population are agriculturists and shepherds.

It has an area of 24,977 square miles. It is the only country in the world whose armies are provided with the Gras guns and paper-covered cartridges.

The Greek flag is a white cross on a blue ground—the Bavarian colors and Greek cross.

Greece is more thickly populated than any other country in Europe, with the exception of Sweden and Prussia.

It has few rivers and many hills. None of the former is navigable, and many of the latter are fortified.

Its present boundary limits were determined by an arrangement among Great Britain, France, Russia, and Turkey, concluded at Constantinople on July 21, 1832.

Only about 70,000 of the inhabitants speak any language other than Greek, and only about 20,000 profess any religion other than the orthodox.

The chief characteristics of the average Greek are his inquisitiveness, fondness for excitement, love of discussion, desire for knowledge, an aptitude for learning, and aggressive patriotism.

The climate has two striking peculiarities—the heat in summer and the cold in winter are far more intense than those of any other country in the world lying in the same latitude. Gell once remarked that in traveling through the Morea in March he found "summer in Messenia, spring in Laconia, and winter in Arcadia, without having moved beyond a radius of fifty miles."

All Humors of the Blood, from the small pimple to the dreadful scrofula sore, are cured by Hood's Sarsaparilla, which thoroughly purifies, vitalizes and enriches the blood.

Hood's Pills cure man's sick headache, indigestion, biliousness. All-day gists. 25c.

Celebrated for its great leavening strength and healthfulness. Assures the food against alum and all forms of adulteration common to the cheap brands.

ROYAL BAKING POWDER CO., NEW YORK.

HIGHLAND.

Grandpa Rutherford had a very serious accident the other day while hauling logs. In some way a heavy log rolled on him and broke his left leg above the knee and held him to the ground till other parties helped him. Dr. Blancy from Clarkes set the limb and is treating him for this and other injuries received.

The decision at our last important debate, "Income Tax," was rendered in favor of the negative. We do not know whether that decision means that the affirmative produced no argument and the negative all, or whether the Highland people are like our moneyed aristocracy of New York, etc. We are inclined to believe that this decision was similar to our supreme court decision. For nearly ten years during and after the war an income tax of 5% on incomes between \$600 and \$5000 and 10% on all incomes above \$5000, which brought a revenue of over \$72,000,000 a year, was constitutional. But a small tax of 2% on individual incomes of over \$4000, corporations not exempt, was declared unconstitutional. What wise people we have at present in the U. S., Highland included. May 4th. Cor.

CANEMAH.

Master Willie Critser had the misfortune to have his finger smashed while playing at school.

It is reported that there will soon be another wedding ceremony celebrated at this place. Boys, get out your tin cans and cow bells.

It is rumored there will soon be opened another grocery store at this place.

The Canemah literary society will give their closing entertainment Friday, May 21st. Admission 10 cents, under 12, 5 cents. The society also elected a new set of officers who went into office Monday. L. H. Easter, who was elected president, is a regular parliamentarian will do his utmost for the good of the society.

CHEESE BOX.

May 5th.

NEW ERA.

Weather is fine and gardens look nice. We aristocrats thank the correspondent of Herald for the compliment.

The belle of our burg was seen parading the streets smoking, I hope not cigarettes.

Their must be some girl attraction at Oswego for some of our young gentlemen go there quite often.

Miss Spalak returned Saturday from a visit to Portland.

We would be glad if the road supervisor would come and fix some of the mud holes a little.

There will be a social for the benefit of the Catholic church soon.

May 5th. M.

Stands at the Head.

Ang. J. Bogel, the leading druggist of Shreveport, La., says: "Dr. King's New Discovery is the only thing that cures my cough, and it is the best seller I have." J. F. Campbell, merchant of Safford, Ariz., writes: "Dr. King's New Discovery is all that is claimed for it; it never fails, and is a sure cure for Consumption, Coughs and Colds. I cannot say enough for its merits." Dr. King's New Discovery for Consumption, Coughs and Colds is not an experiment. It has been tried for a quarter of a century, and to-day stands at the head. It never disappoints. Free trial bottle at Charman & Co.'s Drug Store.

Electric Bitters.

Electric Bitters is a medicine suited for any season, but perhaps more generally needed in the Spring, when the languid exhausted feeling prevails, when the liver is torpid and sluggish and the need of a tonic and alterative is felt. A prompt use of this medicine has often averted long and perhaps fatal bilious fevers. No medicine will act more surely in counteracting and freeing the system from the malarial poison. Headache, indigestion, constipation, Dizziness yield to Electric Bitters. Only 50c and \$1 per bottle at Charman & Co's Drug Store.

A WORD OF MEN'S SHOES..

Shoe bargains, but neve bargain shoes. Do you catch the idea? If great buying—if having large lots of shoes made—if the impetus of this great shoe business helps to make prices abnormally small—then we have shoe bargains. These causes and readjustments of our stocks, as sizes become missing, bring all the shoe bargains we ever have. "Bargains Shoes" don't exist otherwise. For shoes "made to sell," for shoe trash of any kind, we've no room.

KRAUSSE BROS' SHOE STORE

Next Door to Burnmaster & Andersen's.

We intend everybody dealing with us shall be thoroughly satisfied. If through error any transaction should fall short of this ideal, we shall treat it as a favor and not an annoyance if you come back and tell us about it. Marr & Andrews, grocers.

A WORD ABOUT SHOES.

SINCE opening in Oregon City our Shoe trade has steadily increased. This has induced us to show a much larger line for spring than we have ever shown. There is no disputing the fact. We make lower prices on Shoes than any other house in Clackamas county and lower than Portland's largest houses. If you have been paying too much for your footwear and are not satisfied give the
