The Only Exclusive First-Class
Dry Goods House in the City

Every article in our establishment is a Leader—and everything first-class in all respects. **NO SECONDS.** Do you know what seconds are? "Seconds" are articles with manufacturers' imperfections damaged in process of making, which are usually sold less than perfect goods—most "cheap stores" handle them—we do not—there is nothing in cheap, shoddy goods for you—no saving of money. We sell you first-class goods for less money. Twenty years business in the city of Portland to back up this statement.

WE HAVE JUST OPENED:

AN OLD COIN.—S. Benjamin and G. Mimmo, who are traveling through the country exchanging bamboo furniture for broken jewelry or any old castaway thing, captured a prize from an Oregon City lady in securing a gold \$10 Oregon beaver coin. The coin had a gold band around it, evidently having been used years ago for a watch charm. It has the historical beaver engraved on one side, and bears the date of 1840, and the Oregon Trading Company's stamp on the other. It was secured for a trifle, and Benjamin and Mimmo have been offered \$20 for it.

A gentleman went into Holman's to buy some wall paper for his parlor and looking through the many samples found some patterns that were fine, decided upon one. "What is the price of that paper?" "—cents per double roll." "I'm afraid that is too cheap." But when it was explained how and why it was sold so cheap, he took the paper and was highly pleased.

Pill Clothes.

The good pill has a good coat. The pill coat serves two purposes; it protects the pill, and disguises it to the sensitive palate. Some coats are too heavy; they won't dissolve, and the pills they cover pass through the system, harmless as a bread pellet. Other coats are too light, and permit the speedy deterioration of the pill. After 30 years exposure, Ayer's Sugar Coated Pills have been found as effective as if just fresh from the laboratory. It's a good pill, with a good coat. Ask your druggist for **Ayer's Cathartic Pills.**
