CHAUTAUQUA NOTES.—The Chautauqua board met Friday evening and decided not to accept John P. Irish's proposition to speak on the assembly platform in answer to Hon. William J. Bryan. As Bryan speaks on the day before the assembly proper, it was thought best not to bring political discussion upon the regular platform. Besides this, every available afternoon and evening is already taken. The board authorized the construction of a 10,000-gallon reservoir for more adequate water facilities in Gladstone Park. A special committee is at work on the bicycle track, which is to be put in first-class condition. Professor Frank E. Brown of Salem, president of the State Intercollegiate Athletic Association, has been made general superintendent of field sports. The contract for publishing the Daily Chautauqua News was awarded to A. W. Cheney of the Courier, the first issue to appear June 25th. Those wishing advertising space in this valuable medium should address the publisher at once.

MORE POWER FROM OREGON CITY.—Another huge rotary transformer of 500-horsepower has arrived for the Portland General Electric Company. Preparations are being made for installing it in the main station of the company, and the work of transferring it from the car to the station will soon be begun. A 500-horsepower generator to match has been shipped from the factory East, and will arrive in a few days. It will be installed in the extension of the power station at Oregon City, lately completed. The company has, it is understood, contracted to furnish electric power for running the Portland flouring mills, and as soon as the new machines are installed, arrangements will be made to carry out this contract.—Oregonian.

Sunset lots are close to the mills and stores. F. E. Donaldson.

WHY IS IT...

That every day our store is filled with buyers from every part of the city, regardless of distance? There must be some reason. People—especially ladies—don't go out of their way to buy unless there is a reason.

IT IS BECAUSE we have established a reputation for absolutely fresh goods—especially in the line of table delicacies, and our customers are sure of a superior article—and then the prices are right.

Our I's and Other Eyes.

Our I's are just as strong as they were fifty years ago, when we have cause to use them. But we have less and less cause to praise ourselves, since others do the praising, and we are more than willing for you to see us through other eyes. This is how we look to S. F. Boyce, wholesale and retail druggist, Duluth, Minn., who after a quarter of a century of observation writes:

"I have sold Ayer's Sarsaparilla for more than 25 years, both at wholesale and retail, and have never heard anything but words of praise from my customers; not a single complaint has ever reached me. I believe Ayer's Sarsaparilla to be the best blood purifier that has been introduced to the general public." This, from a man who has sold thousands of dozens of Ayer's Sarsaparilla, is strong testimony. But it only echoes popular sentiment the world over, which has "Nothing but words of praise for Ayer's Sarsaparilla."

Any doubt about it? Send for the "Curebook," it kills doubts and cures doubts.
