SETTLED.—At a special meeting of the city council on Monday evening the contest between the city council and the East Side Railway company was practically ended by the introduction of an ordinance giving the company the right to run an express car on Main street on condition that it pay to the city treasurer \$200 a month for six months, beginning June 1 of each year and \$100 a month the other six months of the year. This franchise is to run 10 years, though at the end of five years the sum to be paid for the privilege may be readjusted by the council. The car can not land freight at any place except at the depot north of Fourteenth street or south of Fourth street. The ordinance was ordered published, Councilmen Wilson and Bittner voting the negative. It will come up for final passage at a special meeting June 24. The ordinance passed at the last meeting for the purchase of 300 yards of crushed rock was vetoed by the mayor on the ground of economy and the veto was sustained.

EXPERTS REPORT.—At an expense to the county of \$930 the experts, Messrs. Bozorth and Staley, have found that Sheriff Maddock owed county \$90.57 and that Treasurer Moore was behind \$10.46. They also found that several pieces of wrongly described property and some personal property had not been advertised as delinquent, that books of different officers were kept in a haphazard manner and that some of school funds were spent in wrong districts. By adding \$2000 or more to the pile the entire books of county could be expeted, until when the present expeting is no practical value and has ran county over \$800 more in debt.

Ticklish Things.
 Coughs are ticklish things. Nowhere does the extravagant saying: "I was tickled to death," come nearer being true, than in the case of a severe cough. Do you know the feeling? The tickling in the throat, that you writhe under and fight against, until at last you break out in a paroxysm of coughing? Why not cure the cough and enjoy unbroken rest? You can do so by using
Ayer's Cherry Pectoral.
