McALLEN & McDONNELL, OP PORTLAND, OR.

New Mining Venture. A new corporation to be entitled the Oregon City Prospecting and Mining company, is in the process of formation. The promoters of the scheme are Charles G. Miller and Robert Caufield, and they have every assurance that the stock will soon be all taken, and are confident that it will prove a profitable investment in the end. The capital stock of the company is to be \$30,000, divided into 50 shares of \$600 each, and every stockholder to be an active working member of the corporation. In fact, it is to be community affair, governed by rules and regulations to be adopted. The object of the company will be to prospect and mine on the Yukon river and tributaries in Alaska and Northwest territory. After the organization and election of officers, a committee is to be appointed to purchase or build a suitable river steamer of light draft and sufficient power to be supplied with two cenrtrifugal pumps and engines to run them, the pumps to be used for lifting sand and gravel containing gold, and water to wash the same in sluice boxes on board the boat, if found practical. It is estimated that \$30,000 will properly prepare and equip the boat for a sea voyage to the north of the Yukon, and besides leave a surplus for incidentals. It is the intention for one-half of the party to put in the time prospecting on the bars and along the tributaries of the Yukon, while the remainder of the crew will operate the boat pumping and working gold-bearing sand and gravel. It is the intention to interest some good pros-

all are to share alike. that he and Robert Caufield decided to regret. Therefore, be it make it a thing of reality. Already \$10,000 or \$12,000 worth of stock has been taken, and Mr. Miller says that every individual to whom the idea of most sincere sympathy and condolence. the plan has been presented, readily put down their names as shareholders, and he expresses himself as certain that all the money needed will be raised in Oregon City. It is claimed that there is no risk in the venture, even should it his cold-storage meat which is acknow- Sisters. not prove profitable in the way of edged by all to be superior to the meats mining as the boat would be worth all the money invested in it as a vehicle for carrying passengers and freight on the Yukon river.

Bubbles or Medals.

"Best sarsaparillas," When you think of it how contradictory that term is. For there can be only one best in anything-one best sarsaparilla, as there is one highest mountain, one longest river, one deepest ocean. And that best sarsaparilla is-There's the rub! You can measure mountain height and ocean depth, but how test sarsaparilla? You could if you were chemists. But then do you need to test it? The World's Fair Committee tested it, -and thoroughly. They went behind the label on the bottle. What d'1 this stranparilla test result in? Every make of sarsaparilla shut out of the Fair, except Ayer's. So it we a that Ayer's was the only sarsaparilla admitted to the World's The committee found it the best. They had no room for anything that was not the best. And as the best, Ayer's Sarsoparilla received the medal and awards due its merits. Remember the word "best" is a bubble any breath can blow; but there are pins to prick such bubbles. Those others are blowing more best sarsaparilla" bubble, slace the World's Pair pricked the old ones. True, but Ayer's Sarsaparilla has the medal. The pin that scratches the medal proves it gold. The pin that pricks the bubble proves it wind. We point to medals, not bubbles, when we say: The best saraaparilla is Ayer'a.
