The season of the year has arrived when the proprietor of a newspaper naturally expects to receive some compensation for his labors. The amounts due us from subscribers are individually small, but taken in the aggregate they amount to quite a large sum. During the country's rescue." these hard times it taxes all one's energies to keep a paper afloat. Please try to send us a dollar or two on account, or if you are unable to get the dollar and have produce send or bring that and we will allow you market price. THE agreement of the congressions committee to recommend T. T. Geer of to close the breach between the different factions of the republican party in this county. It is admitted by republican leaders that if the Clackamas county delegation of aspirants for office had agreed among themselves instead of fighting a man from this county would have secured the plum mentioned.

UNCLE SAM is not sharing the prosperity caused by the advance in the price of wheat. His income for the eight weeks of the present fiscal year is \$25,000,000 short of his expenses. If this ratio of receipts to expenditures is maintained, the deficiency when congress meets in December next will be sixty millions of dollars. The great trusts and are in clover, and they are profiting enormously by the Dingley in the land such an exhibit would mean law; but not so with the U. S. treasury. Last Tuesday the receipts were \$727,000 and expenditures \$1,326,000.

But this gigantic monopoly now promises to have a speedy ending, as bids are being daily received at the Navy Department to furnish this investor in Alaska, altogether making plate at from \$60 to \$150 per ton. Great, indeed, is the steel trust, and Carnegie is its profit!

How can the people ever expect relief from the exorbitant rates charged by express companies, telegraph lines, and Philadelphia pool ........... 400,000 sleeping cars, when every senator and Milmine, Bodman & Company, congressman who will accept the bribes are dead-headed by all of these gigantic monopolies? John Wanamaker, while postmaster-general, demonstrated that the telegraph tolls charged the public are from 100 to 1,000 per cent. higher than they should be, while competition in When you take Hood's Pills. The big, old-fashexpress companies, when real, has shown that the rates charged are enormous and outrageously high. SIMPLY because some people endeavor to pay their debts and pay cash for things they buy other think they are getting rich and do not need cash. Many have a mistaken idea that the way to get along successfully is to run bills and then force their creditors to trade with them to get even. It is all right and proper to patronize others if they patronize you but not right or proper to force them to do so.

THE TREASURY DEFICIT. That treasury deficit grows and will not down in spite of Mr. Dingley and to go into the sun without covering his bill, and Mr. McKinley and his eyes, and today his eyes are perfectly advance notices of prosperity. The situation, while not alarming to the country, must yet be annoying to the leaders of the party in power. We heard so much a year ago of the beneficent results that were certain to attend upon the election of Mr. McKinley, and the reinstatement into power of "the party which has always come to

The truth is the revenue of this under the constitution and which will humor of disease orginating in impure stand the supreme court test, are not blood. The cures by Hood's Sarsaparilla enough by many millions to meet the are cures-absolute, permanent, perfect expenditures under the extravagant cures. They are based upon its great the first billion-dollar congress. And the sooner the country wakes up to that fact the better.

The treasury balances for August, while not alarming, are disturbing and exasperating. We took in from all sources \$18,943,205, a trifle over \$600,000 a day. We expended \$33,295,000, or quite a tidy sum over \$1,000,000 a day. That is not a pleasant financial showing. In the case of any private or corporate business that the receiver and the sheriff were not far off.

We spend too much money. Like other prodigals we have become reckless. THE failure of the crops of India, Being the richest in resources of all the Argentina, and Europe would have been nations of the earth, we are too prone the same if silver had not been demone- to hand out our money of to-day, and tized, but the East Indian would have take no heed of the morrow. This had twice as much money with which to course reflects little credit upon our buy our wheat, and the American farmer caution and integrity as a people, and would have received twice as much for none whatever upon the wisdom and his crop as he can possibly obtain under statesmanship of our political leaders.
