McALLEN & McDONNELL,  Cor. 24 & Morrison, PORTLAND, OR.

**MOLALLA MINES.**—J. L. O'Donnell and F. W. Godfrey, two miners who have been working on a quartz ledge on the southern end of Butcher-Knife mountain since early last May, passed through town Monday afternoon, with a sack of ore they intend to have assayed in Portland. Their summer's work is represented by a 40-foot tunnel into the Gold Standard claim, and a 30-foot shaft on the adjoining Florence claim, and they have brought out ore from both. They have had assays of Gold Standard ore that went from \$4.90 to \$91.42 of gold, and a little silver, to the ton; but those samples were not deemed to be so representative of the mine as the ore now brought out. Croppings from the Florence yielded \$2.06 to the ton, but it is expected the ore got under the surface will show up much better. Further operations on those claims will depend on the result of the assay of the ore now brought out. J. E. Meade and William Shrader are working on claims near the Gold Standard, and they have turned up considerable native copper. Butcher-Knife mountain constitutes the tall and sharp divide between Copper and Ogle Creeks, both of which flows from the southward into the south fork of the Molalla.

**A GOOD SCHOOL.**—Attention is called to an advertisement in another column, of the Holmes English and Business College, of Portland, Oregon. This institution has probably educated more young men and women for business, and found them employment, than all the schools of that kind in the Northwest. Miss Holmes, in addition to being assisted by an able corps of six teachers, gives her entire time to the up building of the school and everything that can add to the students' advancement and comfort is provided. The school maintains six departments, namely: Three years course in English branches, a course in book-keeping, penmanship, shorthand, typewriting and telegraphy. The Holmes college is a Christian institution and has at heart not only the mental but the moral and the physical welfare of the students entrusted to its care. The principal has given much thought to the home life of students and is able to provide safe and comfortable rooms at a low cost. The past years of business depression has impressed upon the minds of all the necessity for practical education and never in the history of the country has the work of the thorough business college been so much appreciated as to-day.

Rev. Harold Oberg was appointed for Oregon City M. E. church at the conference held at Corvallis last week. He has been pastor at Corvallis for the past two years, and comes to us very highly recommended. Rev. T. L. Jones will go to Turner and Stayton. He will fill the pulpit at the usual hour next Sunday morning; his subject will be, "Baptism of Fire."

**Millinery Opening.**  
We are prepared to show the ladies of Oregon City and vicinity, at our opening, Wednesday, Thursday and Friday, September 22d, 23d and 24th, the most elegant line of imported hats ever displayed in this city.

Miss C. Goldsmith.

**NASHVILLE STUDENTS.**—The "Nashville Students" will sing in this city under the auspices of the Young Men's Christian Association on Saturday evening, October 21. Frank D. Millet, director of amusements of the Worlds Fair, after listening to their sweet southern melodies for several days, said, "I desire to endorse the Nashville Students fully, they are the best band of jubilee singers I have ever heard." The Y. M. C. A. of Boston, New York and Chicago speaks in highest terms of their concert. The Oregon City Association is to be congratulated on securing this excellent treat for the people.

**WOOLEN MILL RUNNING.**—The Oregon City Mfg Co., has completed the placing of a pair of 36-inch horizontal turbines in the woolen mill, to replace the old 60-inch and 40-inch wheels, the former of which had been doing service for about 35 years. The tail-race was blasted out about four feet in depth to give a normal head of 25 feet, under which the new wheels will develop about 450 horsepower. They were started Wednesday morning for the first time and worked very satisfactorily. Water is conveyed to the wheels through a seven-foot steel flume, and the power is communicated to the machinery by two main driving belts, each 28 inches wide. The weaving, carding and spinning rooms started on Thursday, and the other departments will soon follow. The new machine-shop, picking-room and dyehouse are expected to be completed by October 1.

Do not fail to attend the opening of Mrs. Sladen's Millinery parlors next week and see the fine pattern hats.

School books and school supplies at Portland prices at Charman & Co's, the cut-out-price druggists. Every purchaser gets a tablet or pencil free.

Fine new line of umbrellas and canes at Burmeisters & Andresen's Jewelry store.

Get Peacock flour if you love good bread, at Harris' Grocery.

**Look for the Facts demonstrated by experience. Thousands and thousands of people suffering from the effects of impure blood have been cured by Hood's Sarsaparilla.**

**Sweetness and Light.**

Put a pill in the pulpit if you want practical preaching for the physical man; then put the pill in the pillory if it does not practise what it preaches. There's a whole gospel in Ayer's Sugar Coated Pills; a "gospel of sweetness and light." People used to value their physic, as they did their religion,—by its bitterness. The more bitter the dose the better the doctor. We've got over that. We take "sugar in ours"—gospel or physic—now-a-days. It's possible to please and to purge at the same time. There may be power in a pleasant pill. That is the gospel of

**Ayer's Cathartic Pills.**

More pill particulars in Ayer's Carebook, 100 pages. Sent free. J. C. Ayer Co., Lowell, Mass.
