Dr. Duvall.

It is with unfeigned pleasure that we announce our surprise at the method and results of Dr. Duvall's treatment of diseases that seem to be incurable by the skill of man. Dr. Duvall came among us with commendations that have rarely been awarded to one of his profession; but coming from strangers they did not bring conviction to our minds of his wonderful healing gifts as the statements of our own citizens have done. We are especially most favorably impressed with the statements of two aged ladies so wonderfully relieved with a few treatments, of rheumatism, one of 30 years' standing; also two cases of asthma, two of paralysis, two of female complaint—all relieved with a few treatments. One lady testifies of immediate relief of sufferings intolerable the very minute the doctor came into her room without a word or touch from him. Dr. Duvall treats only such cases as have not yielded to influence of medicines and cannot be improved by surgery. We would advise our readers to procure the doctor's circulars and see the wonderful statements of his most marvelous cures.
