MARTIAL LAW IS PROCLAIMED

sion of Fort Yukon.

Mob Threatened to Raid the Warehouse When Captain Ray Asserted

His Authority. Seattle, Jan. 25.-The latest from Alaska is that Captain Ray, United States army, has taken charge of the stores of the Alaska Commercial Company and the North American Trading Transportation Company, and has proclaimed martial law in Fort Yukon, and placed its 500 inhabitants on rations, compelling those who have money to pay for them, and those who have not to work for them. This step was rendered necessary by the small stock of supplies on hand, which, it was feared, would be exhausted before the Yukon river opened next spring. After taking this action, Captain Ray sent a special messenger to Dawson City, with a letter to the commercial companies notifying them that he had taken possession of their stores. It is stated that the letter also asked the commercial companies to use their influence in securing legislation by congress giving to the soldiers in Alaska the same civil functions as enjoyed by the Canadian mounted police.

The news of Captain Ray's action reached here this morning on the steamer City of Seattle, which brought 45 persons from Dawson City, and gold dust and drafts estimated at \$500,000. Today's arrivals bring advices up to December 21. They contain no other

late news of importance. It is almost the universal expression of those arriving today that while there is no immediate need of a relief expedition, it will be very acceptable late in the spring. All say that an expedition cannot be taken in at this season, but that it would be a wise move on the part of the government to have it at the lakes ready to start when the ice runs out. It will then reach Dawson in time to relieve distress that now seems probable to occur before boats can ascend the river.

It is stated that Captain Ray will ask the secretary of war for sufficient troops to patrol the Yukon basin this coming season. It is also stated that Major Rucker, who is at Dvea and Skagway, making preliminary arrangements for the government relief expedition, has recommended that troops be stationed at these two places and along the trails to preserve order.

W. M. Rank, of San Francisco, who arrived here today from Dawson City, which place he left December 1, gives the following particulars of an attempt by a mob at Fort Yukon to seize the warehouses of the Alaska Commercial Company and the North American Trading & Transportation Company. The particulars were brought to Dawson by Fred Gosch, October 28. One hundred and fifty men went to the trading companies and demanded that the ship, which put to sea with the killing her almost instantly. credit. They said that they would pay them with work in the mines in the Klondike next season. The companies refused, after a consultation with Captain Ray. On the following day the mob gave notice that unless its demands were complied with, the warehouses would be seized. Captain Ray, when informed of this, hoisted the United States flag over both warehouses, and, placing Lieutenant Richardson in command of one, took possession of the other, and proclaimed martial law. Captain Ray swore in a force of 25 men to aid him in protecting the

ORDERED TO HAVANA.

Big Battle-ship Maine Going South on Short Notice.

Washington, Jan. 26.-Within 48 hours, for the first time since the insurrection broke out in Cuba, three years ago, the United States government will be represented in the harbor of Havana by a warship. The decision to send the United States battle-ship Maine was finally reached at a special meeting at the White House this morning, between the president, Secretary Long, Assistant Secretary Day, Attorney-General McKenna and General Miles, and it is a striking fact that, with the exception of Secretary Long and the attorney-general, not a member of the cabinet knew of the intention to take this radical action. It is denied. however, that some such move has long been in contemplation, as evidenced in the following statement of Secretary Day, made this afternoon:

'The sending of the Maine to Havana means simply the resumption of friendly natural relations with Spain. It is customary for naval vessels of friendly nations to pass in and out of the harbors of other countries with which they are at peace, and British and German warships have recently visited Havana. This is no new move. The president has intended to do it for some time, but heretofore something has happened to postpone it.

"The orders to the Maine mean nothing more than I have said, and there is nothing alarming or unfriendly in them. The Spanish minister here is fully informed of what is going on, and, so far as I know, has not made the slightest objection to it." Further, Mr. Day said that Consul-

General Lee had not sent for a warship. This statement shows that the movement was made deliberately, and that it could not have been taken if there were serious apprehensions of its results to Havana. The general belief here, however, is that in Madrid, rather than in any Cuban town, is the trouble to be looked for, if there should be any misapprehension of the purpose of our government in sending the Maine to Havana. The temper of the opposition newspapers in the Spanish capital has been threatening for some time, and it may require the

strong hand of the news censor to re-

press utterances that would lead to

rioting. Admiral Sicard's orders were not made public in their text at the navy department, but it was stated that the substance of them was in the statement made by Secretary Long. The orders were not directly to the Maine, for the reason that she is now attached to the squadron, and the naval regulations require all such orders to go through the superior officer. There is some question whether the telegram reached the admiral before he sailed with his squadron from Key West for Tortugas harbor. The belief is that it did not, but this will make little difference in the programme, inasmuch as the telegram will be sent to the admiral by one of the torpedo-boats, or by some other means of conveyance. The details of the Maine's movements are believed to be left to the arrangement of Admiral Sicard, but it is thought that shot her in the neck and shoulders,

fore going to Havana. The German ships to which Assistant Secretary Day referred in his statement are the Carlotte and the Geyer, both training-ships and not of formidable type, though one sufficed to settle hastily the recent Haytian difficulty. Their touching at Havana is not believed to have been significant, as their pruise was arranged in all details last September, and the some ships are due at Charleston, S. C., early in February.

The rumors that the volunteers have had no foundation. Now that the disturbances have quieted down, the greatest part of the troops have returned to their respective stations.

Among the government's supporters the riots are explained as spontaneous and wholly without previous arrangement. They are ascribed to the violent attacks upon not only army officers, but also upon prominent loyal Spaniards, like the Marquis of Pinar del Rio, and Madame Eva Canel, the wellknown newspaper woman. The soldiers on the other hand blame the authorities for tolerating newspaper attacks prohibited by law. Though without social standing, the ricers insist upon their patriotism.

MOB HELD IN CHECK.

Police of Paris, With the Greatest Dif-

ficulty. Preserved Order. Paris, Jan. 25 .- Todday, Paris has the appearace of being in a state of siege, and 4,000 police and soldiers

hold the Place de la Concord. In anticipation of the prohibited anti-Drevfus demonstration today, under the direction of the organizing committee appointed by the anti-Dreyfus meeting at the Tivoli Vauxhall last Monday night, stringent measures were taken by the authorities to preserve order. The Place de la Concord and the garden of the Tuilleries were held by detachments of cavalry and infantry and large forces of police.

Nothing happened until 2 o'clock the meeting to protest against the prowould revolt against the government Drefyus agitation in the Salie des Milles section and in the Mont Parnesse quarter. The approaches to the hall were occupied by police and mounted republican guards, while the precaution was taken of removing all chairs 15,000 men are now located within the from the interior. The police refused admission to known anarchists, but many who were less prominent evaded police vigilance, gained admittance and created disturbances. M. As the disturbance continued, M. Thiebaud got a motion adopted to close the meeting. The wreath was then placed in a carriage, but the police refused to allow the crowd to follow it in ment and the volunteers, so as to have a body, and divided it into small groups. In the meantime, the anarof 84,000 men less against the insur- chists tried in vain to organize a fresh meeting. The wreath was placed on the statue at half past 4 o'clock this afternoon, amid perfect order.

Later in the evening the police dispersed large bodies of anti-Jewish domonstrators in the Rue de la Payette and at the office of the Aurore, but nothing serious occurred, and there were few arrests during the day.

It is agreed on all sides that Saturday's scene in the chamber of deputies was almost without precedent, except the recent disturbances in the Austrian reichsrath. Curiously enough.
