#### THE PROPOSED UNION.

The question of consolidating the silposely misconstrued and misunderstood by the opposition press. It is not a question of fusion in the generally accepted definition of the word. It is simply, as the Roseburg Review, the leading paper in Southern Oregon, says, a question of whether the voters who supported Mr. Bryan for president fifteen months ago, desire to continue to work together for the common good of all, and for a common object. If not, the result will be confusion instead of fusion-the breaking up into factions of a grand army of six and a half million voters, for no other reasons than the failure to agree upon a common name and the lack of an unselfish patriotism stronger than party prejudice. The question of agreeing upon principles was settled in the presidential campaign, and the union then effected has been cemented at every convention of either of the allied parties

held since that time. The only objection to the continuance of this union is the word "fusion," used by the gold standard press to frighten timid men whose principles are not fixed beyond the power of ridicule to change. An honorable union of forces in a good cause is just as honorable under the couple of years and go there at very little name of fusion as any other. Those who voted for Mr. Bryan and are not sorry they did it and those who did not vote for him and are sorry will be glad to stand together on a platform declaring for the free coinage of silver, direct legislation and reform and retrenchment in state matters, and protesting against government by injunction, the fostering of trusts and monopolies and the ex LAXATIVE BROMO QUININE TABLETS travagance and incompetency within the state. Those voters who do not wish to support such principles will naturally oppose any union of forces, be they democrats, populists or silver republicans.
