Bi-Metallic Silver Republican Call.

Notice is hereby given that a mass convention of all republicans of Clackamas county, Ore., who believe in the independent free coinage of both gold and silver at a ratio of 16 to 1, the abolition of all corporate or private banks of issue and the issue of all money by the government alone, which shall be a full legal tender for all debts, public and private, and a government of, for and by the people, best attained by direct legislation be and is hereby called to meet in Oregon City, Or., at 11 o'clock a. m., March 19th, 1898, for the purpose of electing delegates to the state convention to be held in Portland, Or., on March 23d, 1898, and for the transaction of any other business that may come before the meeting.

WM. BARLOW, County Chairman.

We have been asked several times why the republican circuit court officials do not push the case of a deputy official that "went wrong" some months since.

The silver forces are making a splendid showing all over the country. Harmony prevails among all bimetallicists. Well may old Bondholder Cleveland get frightened at the prospects of electing a president who will not sell bonds for the profit of bankers.

The Maine naval board of inquiry has not yet made a report. It is not stated when they will submit their findings. The American people are patiently awaiting the result. Upon the report may depend whether or not hostilities between the United States and Spain will commence.

If we must have war to thrash Spain for her cruel treatment of the Cuban patriots and her dastardly deed in blowing up the Maine, let us have it, and prosecute it with American money. Don't let us bond ourselves and our posterity to the money power. There is no honor in doing that.

Do not let the talk of war divert the attention of the people from the money question. The clouds of war may pass over, but the gold standard, which has already destroyed more than all recent wars together, is now in our midst. We must destroy the monster gold before we can save free institutions in this country.

The \$6,700,000 that Hanna ordered to be given the Pierpont Morgan gang of robbers in the Kansas Pacific deal, is nearly as much as the appropriation by the government for our coast defenses, and would build two great battleships. But the campaign debt must be paid, or the robbers will not "put up" for the next national contest.—Review.

Republican papers are busily engaged these days reading out of the party those republicans who believe that silver should have equal privileges with gold in our monetary system, and appreciate the fact that there is no place for a silver man in the republican party. They say: "The republican platform denounces free silver, therefore advocates of free silver cannot be republicans."

McKinley "prosperity" has broken loss in the Wheeling iron and steel works, which has shut down because 1,500 workmen refused to submit to a reduction of from 15 to 50 per cent in their wages. It will be remembered that this is one of the mills which had large posters displayed previous to election in November, 1896, saying if Bryan was elected the mill would close, but if McKinley was elected work would go on at advanced wages.

It is announced that "Cyclone" Davis, one of the ablest and most prominent leaders of the people's party, will come to Oregon in the interest of the union movement. He was one of the members of Texas' delegation to the populist national convention in 1896, all of whom were in favor of staying in the middle-of-the-road. Mr. Davis knows that only by a union of the silver-reform forces can the republicans be defeated; hence this change in his attitude.

A former judge of the supreme court of Oregon, elected as a republican, cannot support the gold standard policy of his party. A correspondent to the Salem Journal writes: The union bimetallic club, of McCleary precinct, held a highly successful meeting on Wednesday evening. There was a large attendance. Judge Waldo made the best argument on silver and the money question ever heard here. The judge spent some time in preparing it and it was a complete history of the gold standard fraud. Speaking as a silver republican it was an invincible presentation and should be published.

It is an undoubted fact that the republican national committee has determined to buy the state election, to be held June 6th, in Oregon. Senator McBride, of this state, says the fight can be made and won on the gold standard, for which he has declared himself, and the committee proposes to send at once one hundred thousand dollars to Oregon and as much more as may be necessary to ensure success. The state will be flooded with gold standard arguments. Matter will be prepared and sent to every paper, republican, populist, independent or democratic and insertion will be paid for when it cannot be obtained otherwise. Of course most of the papers of all kinds will refuse to be bribed, but some will accept. The people are warned. The state will be bought or stolen if it is possible to do it. The object is to affect the fall elections by carrying Oregon for the gold standard.—Albany Press.

GOVERNMENT for bondholders is becoming quite common in the world—nations gone into the hands of a receiver. All that the poor, miserable laborers in the Nile valley and their children for three generations can earn, is to be paid over to British bondholders, and the government of Egypt gets its orders from Lombard Street. Greece is mortgaged and was not permitted to fight for its interests by those who hold Grecian bonds. In India, in Turkey, in Spain, the influence of the coupon is paramount; the welfare of the people is a secondary consideration. In late years in our own country the influence of wealth is dictating legislative measures, and government policies is becoming more and more apparent. Mr. Cleveland disrupted his party in doing the biddings of a money syndicate, which made enormous profits out of a scandalous bond deal. To-day all the trusts, all the monopolies, every agency which is bleeding the country, has taken refuge under the wing of the republican party, because they fear the democratic party, which has kicked them out. To them party is a means to an end, and that end is to get rich at everybody's expense, right or wrong.—Governor Pingree.

IN MEMORIAM.

Claude William, the infant son of Mr. and Mrs. William Wright, aged seven months and 10 days, died in this city Sunday, March 13th. The little one died of membranous croup, and all that human skill could do was unavailing. The funeral services were held at the family residence Monday afternoon, and were conducted by Rev. Dr. Williams. The sympathy of many friends is extended to the bereaved parents. A lady friend of the family dedicates the following lines in memory of the deceased:

In memory of darling Claude,
As tender mothers, guiding baby steps,
When plagues come at which the tiny feet
Wound—trip, tip up the little ones to arms
Of love, and set them down beyond all harm,
So did our father watch the precious boy
Led by the stones by me, who stumbled at
Myself, but strove to help my darling on.
He saw the sweet limbs faltering, and saw
Rough ways before us—where my arms would
fall.
So reached from Heaven, and lifting the dear
child,
Who smiled in leaving me, he put him down
Beyond all hurt, beyond my sight and bade
His wait for me! Shall I not then be glad,
And thanking God, press on to overtake.
