...Bicycles With Wings...

The nearest approach to flying yet attained. The experts who perfected and the makers who produced the Chainless Bicycle are public benefactors. No noise. No breaks. No friction caused by exposed driving parts. No attention necessary. "You buy the wheel—the Columbia Chainless does the rest." Not an hour of time taken to keep the Chainless in order for a year. More durable. More handsome in appearance. Less expensive "in the end." Absolutely satisfactory under all conditions of use. The Columbia Chainless stands today as the greatest achievement of America's oldest and most modern and complete bicycle factory. "You see them everywhere." They are
