THE war will soon be over, but the and the choicest butter. war tax will linger with us, and the war bonds will stick to us closer than a brother .- Ex.

An ounce of silver is now worth a bushel of wheat. They manage to get together in spite of all that can be done to keep them apart-Independent.

GENERAL James B. Weaver has been nominated for congress in seperate conventions by the democrats, populists and free silver republicans of the sixth Io wa congressional district.

Wood buyers at the Palles are offering from 11 to 12 cents for wool, but no sales and amount apportioned to each district are being made. Wool is the same price now that it was four years ago Dist Clerk's Name and P.O. when the "free trade" Wilson bill went into effect, with the difference that sales were then more frequent .- Glacier.

Arraoton the war lasted only 114 days it is estimated that it has cost the government so far \$:50,000 000, of which \$98,000,000 has been actually paid out of the treasury. Appropriations made by congress on account of the war aggregat- in ed about \$360,000,000, and cover the time 14 to January 1st, 1899.

WHILE creditor England has been 18 busy forcing the gold standard upon 19 other nations, Russia has been doing 2 business on paper money, developing 22 her resources, and by stimulating business at home has been able with her 24 surplus products to gather in about 25 \$600,000,000 in gold, which is securely 37. locked up in her war chest.

COMMODORE WATSON, the grizzled veteran who was Farragut's right hand man in the rebellion and performed feats of personal daring unexcelled in the 34 history of naval warfore, was given no opportunity to distinguish himself during the late war. But what business as has a man to be a Kentucky democrat 30 like Watson, or a Virginia democrat like 40 Fitzhugh Lee, anyway, asks the Roseburg Review?

BINGER HERMAN does not propose to desert his Oregon friends as long as a | 47 senatorial election hovers in the near 48 future. In the national treasury only 42 holds out he will have a bigger army of 50 special land agents and forest rangers than that now operating in Porto Rico 33 under General Miles. Binger has, also, 51 raised salaries, a notable instance being clerks in the U.S. Land office who have heretofore received \$1,000 a year but 58 now, with the work diminishing are to 39 be paid \$1,200. Republican prosperity -of the Mark Hanna brand-evidently means prosperity to the office holding 83 class at the expense of the people who 64 pay the taxes,-Rosebury Review.

THE batteries of the Morro Castle at 68 Santiago were practically uninjured by 69 successive bomdardments. This teaches us that a modern land battery, properly | 72 constructed and manned, is impregnable 73 from the sea. The gues, which destroy- 74 ed Cervera's fleet in less than an hour, were not able in two months to demolish the six guns in the Morro battery, 7 Had the guns been properly manned 79 our blockading squadron would not have been able to keep in range of their fire. This means that our coast defenses can | 83 readily be made completely impregna | 80 ble-that the strongest navy in the world | 5 could not stand for a single day in front | 87 of the guns and mortars at Sandy Hook. ss
