PRINCESS VICTORIA. The story of England's youth is a story of princes. At one time or another, the English interest has been lent to the children of the monarchs. One of these children was Princess Victoria. She was the daughter of Queen Victoria and Prince Albert. Princess Victoria was born on May 24, 1837. She was the second child of her parents. Her older sister was Queen Victoria, and her younger brother was Prince Albert. Princess Victoria was a very intelligent and well-educated girl. She was known for her love of learning and her interest in music and literature. She was also known for her kindness and her love of her family. Princess Victoria was married to Prince Albert of Saxe-Coburg and Gotha in 1858. They had nine children together. Princess Victoria died on December 22, 1861, at the age of 24. She is buried in the church of St. Pancras in London.
