## Carus.

Where is Carus and what kind of men are living there? There must be some that a smart politician could use for any purpose, if they find fault with our road supervisor (he being a republican), and say he should not be strutting around Oregon with populist lawyers—but go to republicans if he has that kind of business. The fool knew that one of the populist lawyers is a cousin to the supervisor, but if he was not, is he afraid he will lose his influence with the politicians if he will be seen with a populist. If we are not mistaken, he was classed among the doubtful ones two years ago, until he got a few appointments, such as viewing new roads, etc., but it takes all kinds of men to make a world.
