### FROM MANILLA.

#### Ex-Councilman J. W. Moffatt Tells Some Facts.

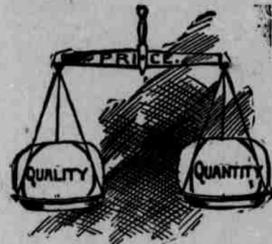

Ex Councilman J. W. Moffatt writes a very interesting letter from Manilla under date September 30th, to County Judge Ryan. Mr. Moffatt is a careful, conservative observer, and tells things exactly as they exist. The following extracts are taken from the letter:

I suppose the hard luck stories the boys have been writing home, gave the people what they thought good grounds or sympathy. I do not know as sympathy will hurt us at all, but hope the people will not put themselves to much trouble or expense to show it. I will give you some facts to figure from, and then you can judge whether at the present time we are in great need of assistance or expressions of sympathy, but I think it my duty to trouble my best friends as little as necessary.

As you know most of the boys left comfortable homes where they came and went as they pleased and never knew what hardships meant, and that it takes time to get hardened to army life. If you could see how well and hearty most of them are, you would say that it was the best thing that ever happened them. True, we are somewhat isolated, and some of the boys have suffered from homesickness. We are located in the heart of an ancient city with a great many modern improvements, which makes it interesting and pleasant. As to the climate, while you have 97, the hottest I have noticed here 31 degrees centigrade, which is equal to 83 fahrenheit. It was a great deal warmer than that when we first landed, but did not see any thermometer. It never gets cold, but cool enough to sleep under a blanket. We get an allowance of \$53 for clothing for the first six months. We get the required white suit for \$1 10 here, and a helmet hat costs 50 cents; two shirts, 61 cents; shoes, \$1 40, and socks and underclothes for \$1. Twenty dollars will cover our expenses for clothes so far, including overcoats. Our blue clothing, etc., we bought in Oregon. By the way, we will make the state of Oregon remember us for the cost of them, as we wore them all the time we were in the National Guard.

In addition to the above, the private who draws the smallest pay gets \$15 00 per month. Doctor's treatment, hospital service, transportation and board, which is not always of the best quality, is wholesome and healthy, are all free.

### Weighing Things

The value of our groceries depends on three things: How much you get for your money; how good it is when you get it, and the price you pay for what you get. We have sugars that are cheap and sugars that are good. We have coffees that will satisfy the appetite and the pocketbook. Staple goods at less than staple prices. We give you money-saving health-saving chances.

## A Few Words to Prospective Buyers of Upholstered Furniture

The first question dear lady you should ask after entering a shop is, who made this couch or lounge, what is it made of and can you guarantee the work?

Now, let us tell you, no dealer can do that unless the work is done under his own eyes; lounges and couches are made by contract in factories, and no manufacturer can guarantee piece work—Quite different with us, dear lady, we will show you the lounge cover first, so you examine the quality, then we will show you the springs, wool, hair, or excelsior, as the case may be, and guarantee that either material is used for a certain piece of furniture you may select.....
